

# ***NOTICE OF PUBLIC MEETING***

## **Waverly Lake Watershed (Morgan County)**

The City of Waverly will hold a public meeting on

***December 14<sup>th</sup>, 2016 (6:30 pm)***

at the

***American Legion  
130 East State St, Waverly, IL***

The purpose of this meeting is to provide an opportunity for the public to receive information on a Total Maximum Daily Load (TMDL) concerning impairments to water body segments within the Waverly Lake Watershed. The segments and potential causes of impairment are: Waverly Lake (total phosphorus).

The draft TMDL Report includes watershed characterization, data analysis, pollutant loading capacity and reductions necessary to meet designated uses and water quality standards, and a watershed-based implementation plan.

The IEPA implements the TMDL program in accordance with Section 303(d) of the federal Clean Water Act. A TMDL is the sum of the allowable amounts of a single pollutant (nutrients, metals, etc.) that a waterbody can receive from all contributing sources and still meet water quality standards or designated uses. The implementation plan is intended to identify practices and solutions that will result in pollutant reductions.

The draft Waverly Lake TMDL Report will be available online at:  
<http://www.epa.illinois.gov/public-notices/general-notices/index> .

A hard copy of the draft report will also be available at Waverly City Hall during business hours.

Questions about the draft TMDL Report should be directed to the project manager, Jeff Boeckler. See contact information below.

### **Closure of the Meeting Record**

The meeting record will close as of midnight, January 14, 2017. Written comments need not be notarized but must be postmarked before midnight and mailed to:
