

To provide residents of the Lawrenceville area an opportunity to meet with state and local officials to discuss the investigation and cleanup of the former Indian Refinery/Texaco site, the Illinois Environmental Protection Agency is holding a

## Public Availability Session

- Date:** Wednesday, September 17, 2008
- Time:** 4:00 p.m. to 7:00 p.m.
- Location:** 1214 State Street, Lawrenceville
- Participants:** **Illinois Environmental Protection Agency (host)**  
Illinois Department of Public Health  
Lawrence County Health Department  
Chevron Environmental Management Company
- Format:** The Session will be an open-house format. Citizens may meet with representatives of each organization one-on-one to discuss issues of concern. The facility is handicap accessible. Illinois EPA will give a short presentation of the findings from the site investigation at 5:30 p.m.
- History:** After an extensive investigation of this Superfund site, Illinois EPA has received a Remedial Investigation Report from Chevron – including the Baseline Human Health and the Ecological Risk Assessments. The next step is the Feasibility Study being developed for a remedy or remedies for the site contamination.
