

Draft Outline for Subcommittee A Work Product

Introduction:

1. Description of Conceptual Model (in general, how does an aquifer become contaminated?)
2. Definition of Threat (what we are looking for)
3. Presentation of Methodology (how did we go about looking, what databases did we use, how did we use them)

Findings: (issue sheets based on template)

1. Manlove #4
2. Legacy Landfills
3. Source Water Contamination Review
4. Road salt
5. Upwelling brine
6. Arsenic in Tazewell County
