Draft Outline for Subcommittee A Work Product

Introduction:

- 1. Description of Conceptual Model (in general, how does an aquifer become contaminated?)
- 2. Definition of Threat (what we are looking for)
- 3. Presentation of Methodology (how did we go about looking, what databases did we use, how did we use them)

Findings: (issue sheets based on template)

- 1. Manlove #4
- 2. Legacy Landfills
- 3. Source Water Contamination Review
- 4. Road salt
- 5. Upwelling brine
- 6. Arsenic in Tazewell County
