Instructions for the Site Remediation Program (SRP) Application and Services Agreement (Form DRM-1)

General Information

Completion of this Application and services Agreement is required of a person requesting enrollment in the Site Remediation Program (SRP). Please read these directions carefully. All information should be typed or legibly printed in ink. The letters "NA" may be used, but only if the requested information is not applicable. Justification must be stated for any failure to provide requested information.

Submit the original and one copy of all information requested in this application to:

Illinois Environmental Protection Agency
Bureau of Land
Remedial Project Management Section
Site Remediation Program
2520 West Iles Avenue
P.O. Box 19276
Springfield, IL 62794-9276

Hand carried documents may be delivered during normal business hours to the above address.

We recommend you keep a copy of every submittal and any relevant correspondence sent to the Illinois EPA.

Please fill out sections in this section that apply to the services requested. The information required is described in the directions on the following pages.

Form DRM-2 must also accompany the application if any plans or reports for Illinois EPA review and evaluation included with the submittal application.

I. Remediation Site Identification:

The remediation site is the single location, place, tract of land, or parcel or portion of any parcel of property, including contiguous property separated by a public right-of-way, for which review, evaluation, and approval of any plan or report is requested by the Remediation Applicant ("RA") in this application. A remediation site also includes, but is not limited to, all buildings and improvements present at that location, place, or tract of land.

Include the remediation site name, street address, city, ZIP code, county, approximate size of remediation site (acres), Illinois Inventory ID (if assigned), USEPA ID number (if assigned), remediation site base map (attached), and any Illinois Environmental Protection Agency permit(s) or LUST/IEEMA Incident Number(s) for the remediation site. If an Illinois Inventory ID Number does not exist, one will be assigned to the site. Sites must be located in the State of Illinois.

A remediation site base map must accompany the Application. Failure to include a remediation site base map will result in denial of the Application. The remediation site base map must be of sufficient detail and accuracy to show all of the following:

- A. A distance of at least 1,000 feet around the remediation site at a scale no smaller than one inch equal to 200 feet:
- B. Map scale, north arrow orientation, date, and location of the remediation site with respect to township, range and section;
- C. Approximate boundary lines of the remediation site, with the owners of adjacent properties clearly indicated, if reasonably identifiable;
- D. Surrounding land uses (e.g., residential property, industrial/commercial property, agricultural property, and conservation property).

II. Remediation Applicant ("RA") Identification:

An RA is any person seeking to perform or performing investigative or remedial activities under the SRP. The RA may be the owner or operator of the site or any other person authorized by law or consent to act on behalf of the owner or operator of the remediation site.

Include the full legal name, title, company, street address, city, state, ZIP code, telephone number, and Federal Employee Identification Number ("FEIN") or Social Security Number ("SSN") of the RA. The RA or the authorized agent of the RA must certify, by original signature, the statement appearing in Section II of this application form.

III. Project Objectives:

- A. Three (3) types of release letters are available under the SRP: A comprehensive No Further Remediation ("NFR") Letter, a focused NFR Letter, and a 4(y) Letter.

An NFR Letter signifies a release from further responsibilities for the conduct of approved remedial actions and provides *prima facie* evidence that environmental conditions at the remediation site do not constitute a significant threat to human health and the environment. An NFR Letter applies in favor of the RA and to other persons with ownership interest in the property. There are two types of NFR Letters issued by the Illinois EPA under the SRP:

1. A comprehensive NFR Letter signifies a release for all recognized environmental conditions and all contaminants of concern as included in 35 Illinois Administrative Code 740 Appendix A Target Compound List. An RA must investigate and remediate all media (i.e. soil, groundwater, and soil gas) for **all** contaminants of concern at the remediation site.
2. A focused NFR Letter signifies a release for only those limited recognized environmental conditions or contaminants of concern specified by the RA. An RA must investigate and remediate all media (i.e. soil, groundwater, and soil gas) at the remediation site, but **only** for those contaminants of concern specified by the RA.

A 4(y) Letter provides a limited release under Section 4(y) of the Illinois Environmental Protection Act to a person who successfully completes preventive or corrective action at the remediation site. The 4(y) Letter only applies to the RA and not to other persons. Preventive and corrective actions may be limited to activities (e.g., drum removals, spill response, etc.), specific media (e.g., soil), or specific contaminants of concern.

Identify in Section III of his application whether a comprehensive NFR Letter, a focused NFR Letter or a 4(y) Letter is requested. If a focused NFR Letter is requested, identify contaminants of concern in the space provided. If a 4(y) Letter is requested, identify the situation (i.e. the media and remedial actions taken or to be taken) and identify contaminants of concern and/or media to be investigated and remediated in the space provided.

- B. Identify any support services requested from the Illinois EPA in addition to the review and evaluation services (e.g. assistance with community relations, coordination between the RA and other governmental entities, etc.).
- C. Indicate the approximate dates that the Illinois EPA should expect receipt of each of the following documents: Site Investigation Report; Remediation Objectives Report; Remedial Action Plan; and Remedial Action Completion Report. Attach a detail anticipated project schedule (e.g., Gantt charts), if available.
- D. Identify the current and post-remediation uses of the remediation site (e.g. residential land use or industrial/commercial land use).

IV. Written Permission from the Property Owner:

Indicate whether or not the RA is the owner of the remediation site. If the RA is not the property owner of the remediation site, include the full legal name, title, the company, the street address, the city, state, ZIP code, and telephone number of the property owner in Section IV of this application form. For multiple property owners, attach additional sheets containing all the information required under this section along with a signed, dated certification for each. The property owner or the authorized agent of the property owner must certify, by original signature, the statement appearing in Section IV of this application form.

V. Advance Partial Payment:

Submit a \$2500 advance partial payment with the application. Please make the check payable (in the amount of \$2500) to "Illinois Environmental Protection Agency" with "For Deposit in the Hazardous Waste Fund" and include the RA's FEIN or SSN on the check.

VI. Billing

Once the project costs incurred by the Illinois EPA have exceeded the advance partial payment amount, quarterly invoices will be sent to the RA. Payment to the Illinois EPA is due within 45 days of receipt of the invoice.

In addition to the fees applicable under this Services Agreement, the recipient of an NFR Letter must pay to the Illinois EPA an NFR Assessment in the amount of the lesser of \$2500 or an amount equal to the costs incurred by the Illinois EPA under this Agreement (35 IAC 740.615).

What Happens Next for the New Remediation Sites?

The Illinois EPA will initially review the application and accompanying documents to make certain the application is complete. Should the application be deficient or if the Illinois EPA is unable to provide the services requested, the RA will be promptly notified of the application denial and the reasons.

Upon receipt of the proper application, a project manager will be assigned. Confirmation concerning receipt of money, the name of the project manager and an Illinois Inventory ID number will be sent to the RA and the RA's consultant, if identified.

All information submitted is available to the public except where specifically designated by the RA to be treated confidentially in accordance with the Illinois Compiled Statutes, Section 7(a) of the Environmental Protection Act, the Rules and Regulations of the Illinois Pollution Control Board, and the Rules and Regulations of the Illinois EPA.
