Used oil facilities that have a U.S. EPA identification number are not required to notify of additional used oil activity. However, it would be helpful in updating the Agency's records if you would indicate any other used oil activity occurs at your location:

Used Oil Processor

Used Oil Burner

Used Oil Transporter

Used Oil Marketer

If any of these types of operations are conducted at your facility and you do not already have a U.S. EPA identification number, you must complete and return Form 8700-12 (available from the Agency).

E-mail completed form to: EPA.WasteReporting@illinois.gov
