

**Instructions for Application for Construction/Operation Permit for Erosion Control
Schedule P**

This schedule must be submitted if construction involves excavation or removal of natural vegetation from an area for purpose of construction of sewers greater than 15 inches diameter, of all sewage treatment plants and lift stations, and of all sewer extensions and connections longer than 2000 feet in total length.

1. The name of the project must be the same as that indicated on WPC-PS-1.
2. Total area may be in acres or in square feet.
3. Summarize erosion control practices in appropriate unit of measure. If area controlled is in units other than square feet, indicate the unit of measure.
4. Clearly delineate erosion control practices on plan map, with legends, if necessary.
5. Drainage area may be in square feet or acres; please indicate unit of measure.
6. Slope categories.

6.1-6.4 Area may also be expressed in square feet. If so, please indicate.

Examples of Disposition: Relocated to fill area and reseeded.

Replaced soil on eroded area and reseeded.

This Agency is authorized to require this information under Illinois Revised Statutes, 1979, Chapter 111 1/2, Section 1039. Disclosure of this information is required under that section. Failure to do so may prevent this form from being processed and could result in your application being denied.

Schedule P - Erosion Control

1. Name of Project _____
2. Total area disturbed by excavation: _____
3. Summary of erosion control practices:

		Area Controlled (Sq. Ft.)	Permanent (P) or Temporary (T)
Vegetative Control	_____ (Sq. Feet)	_____	_____
Interceptor Ditches	_____ (Feet)	_____	_____
Berms	_____ (Feet)	_____	_____
Sediment Basins	_____ (Cu. Yd.)	_____	_____
Debris Basins	_____ (Cu. Ft.)	_____	_____
Desilting Basins	_____ (Cu. Ft.)	_____	_____
Silt Traps	_____ (Cu. Ft.)	_____	_____
Mulching and Matting	_____ (Cu. Ft./Sq. Ft.)	_____	_____
Other	_____ (Indicate)	_____	_____

4. Attach topographical or plan maps of construction area and indicate erosion control practices.
5. Drainage area (above and including construction site) _____
6. Slope categories of construction site:

	Area (acres)	Disposition of collected sediment
6.1 0 - 2% slope	_____	_____
6.2 2 - 4% slope	_____	_____
6.3 4 - 6% slope	_____	_____
6.4 6% slope or greater	_____	_____

Please check one below.

Erosion control practices identified above will be constructed in accordance with Illinois Urban Manual, 1995.

OR

Plans or specifications for the above referenced erosion control practices are attached.
