Landfills

All seven landfills in Northwestern Illinois Region remained open throughout 2010. Four landfills in Region One were in the top ten rankings of all the State's landfills in terms of waste receipts in 2010. Veolia ES Orchard Hills Landfill Inc., Davis Junction, ranked first in the state by accepting more than 6.8 million gate cubic yards; Winnebago Landfill, Rockford, was second, accepting more than 5.1 million gate cubic yards; Prairie Hill RDF, Morrison, was seventh, receiving more than 2.2 million gate cubic yards; and Lee County Landfill Inc., Dixon, was eighth with more than 1.5 million gate cubic yards of municipal solid waste accepted for disposal.

Region One's seven active facilities received more than 16.5 million gate cubic yards of municipal waste in 2010. The waste receipts for 2010 showed that more than 1.2 million gate cubic yards waste was received than the year before. The waste receipts increased year to year by 7.9 percent.

Out-of-state waste accepted from California, Iowa and Wisconsin

LandComp Landfill, Ottawa, reported accepting waste from the State of California. Prairie Hill RDF reported accepting waste from the State of Iowa. Veolia ES Orchard Hills Landfill Inc. accepted waste from the State of Wisconsin. All together this total of 181,231 gate cubic yards amounted to one percent of the total waste accepted in the Region's landfills.

Capacity decline of 19.5 percent reported as of Jan. 1, 2011

Capacity available for waste disposal in the region declined by 19.5 percent from 2009 to 2010, by a total of more than 55.3 million gate cubic yards. The capacity available in the region is reported on Jan. 1, 2011 by Illinois landfill operators to be more than 228.6 million gate cubic yards. This region was one of five in the State reporting declining capacity. Also reporting declining capacity were Region Four: East Central Illinois; Region Five: West Central Illinois; Region Six: St. Louis Metropolitan East and Region Seven: Southern Illinois.

Fourteen years of capacity remain for region as of Jan. 1, 2011: three landfills rank in top ten listing of largest landfills

This region is second in the state behind Region Three: Peoria/Quad Cities, in remaining capacity, with a 21.9 percent capacity share. Veolia ES Orchard Hills Landfill reported almost 90.2 million gate cubic yards of space available as of Jan. 1, 2011, making it third in the state in capacity rankings on that date. Lee County Landfill Inc. reported the fifth largest capacity, at 58.7 million gate cubic yards. Prairie Hill RDF reported more than 45.6 million gate cubic yards of capacity available and ranks eighth.

The Region's seven landfills may provide 14 more years of waste disposal capacity for the region, which ties the amount of years available in Region Two: the Chicago Metropolitan Area.

Region One covers the following 12 counties:

The counties of Boone, Bureau, Carroll, DeKalb, JoDaviess, LaSalle, Lee, Ogle, Putnam, Stephenson, Whiteside and Winnebago are located in Region One: Northwestern Illinois.
