## **Region One covers the following 12 counties:**

The counties of Boone, Bureau, Carroll, DeKalb, JoDaviess, LaSalle, Lee, Ogle, Putnam, Stephenson, Whiteside and Winnebago are located in Region One: Northwestern Illinois.

## Landfills

All seven landfills in Northwestern Illinois Region remained open throughout 2012. Three landfills in Region One were in the top ten rankings of all the State's landfills in terms of waste receipts in 2012. Advanced Disposal Services Orchard Hills Landfill Inc., Davis Junction was second accepting almost 3.1 million gate cubic yards; Prairie Hill RDF, Morrison was sixth, receiving more than 2.0 million gate cubic yards; and Winnebago Landfill, Rockford ranked seventh in the state by also accepting more than 2.0 million gate cubic yards of municipal solid waste accepted for disposal.

Region One's seven active facilities received almost 9.5 million gate cubic yards of municipal waste in 2012. The waste receipts for 2012 showed that almost 5.9 million fewer gate cubic yards waste was received than the year before. The waste receipts declined year to year by 38.3 percent. Even so, these landfill operators managed 24.2 percent of the waste accepted for disposal in the State of Illinois, more than any other Region.

## Out-of-state waste accepted from Iowa and Wisconsin

Prairie Hill RDF reported accepting 25 percent of its waste from Iowa. Advanced Disposal Services Orchard Hills Landfill Inc. and LandComp Landfill, Ottawa accepted some waste from Wisconsin. All together this total of 524,023 gate cubic yards amounted to 6.3 percent of the total waste accepted in the Region's landfills.

## Capacity decline of 21.5 percent reported as of January 1, 2013

Capacity available for waste disposal in the Region declined 21.5 percent from 2012 to 2013, by a total of almost 52.4 million gate cubic yards. The capacity available in the Region is reported on January 1, 2013 by all seven landfill operators to be more than 191.3 million gate cubic yards. This Region was one of five in the State reporting declining capacity. Also reporting declining capacity were Region Two: Chicago Metropolitan; Region Five: West Central Illinois; Region Six: Metropolitan East St. Louis and Region Seven: Southern Illinois.

Twenty (20) years of capacity remain for Region as of January 1, 2013: three landfills rank in top ten listing of largest landfills.

This Region is third in the state behind Region Three: Peoria/Quad Cities and Region Four: East Central Illinois in remaining capacity, with an 18.2 percent capacity share. Region Three had 29.0 percent and Region Four had 20 percent share of the State's available capacity.

In this Northwestern Illinois Region, Lee County Landfill Inc. reported the fifth largest capacity of space available as of January 1, 2013, having reported more than 57.4 million gate cubic yards. Advanced Disposal Services Orchard Hills Landfill reported more than 52.7 million gate cubic yards, making it seventh in the State in capacity rankings on that date. Prairie Hill RDF reported more than 47.1 million gate cubic yards of capacity available and ranks tenth.

The Region's seven active landfills may provide 20 more years of waste disposal capacity for the Region, compared to 26 years of landfill life for the entire state.

## Illinois EPA Permit Approval for Expansion of Existing Landfills: 2012

The owner and operator of Winnebago Landfill, Rockford, propose a lateral expansion to the West consisting of 8.0 million cubic yards. Agency approval of this proposal was obtained on August 16, 2012.
