

## **Region Five: West Central Illinois**

---

### **Region Five covers the following 17 counties:**

The counties of Adams, Brown, Calhoun, Cass, Christian, Greene, Jersey, Logan, Macoupin, Mason, Menard, Montgomery, Morgan, Pike, Sangamon, Schuyler and Scott are located in Region Five: West Central Illinois.

### **Landfills**

Region Five's four active landfills accepted almost 1.6 million gate cubic yards of waste during 2012 which was 55,143 cubic yards less than the amount disposed of in 2011, representing a 3.4 percent decline. Statewide, waste disposed in landfills was down more than 13.7 percent.

Waste disposed in landfills in West Central Illinois (Region Five) during 2012 amounted to almost 4.1 percent of the state's total, the lowest in the state. Regional waste acceptance rates range from 4.1 in this Region to almost 24.1 in Region One: Northwestern Illinois.

### **Out of state wastes accepted by one landfill**

Hickory Ridge Landfill, Baylis (formerly known as Pike County Landfill) was the only facility to accept waste from any other state. Seven percent of the Hickory Ridge Landfill's waste receipts came from the two states of Iowa and Missouri. This out-of-state waste totaling 33,067 amounted to 2.0 percent of the total waste received in the Region.

Statewide, 5.4 million gate cubic yards were accepted from out-of-state. Data showed that in 2012, 13.5 percent of the municipal waste accepted came from nine other states besides Illinois: Indiana, Iowa, Kansas, Kentucky, Minnesota, Missouri, South Dakota, Tennessee and Wisconsin.

### **Capacity down 3.2 percent in Region**

Region Five has second fewest operating landfills located in any Region, five. Only Region Six has fewer; and it has three. These five landfills reported 3.2 percent less available capacity from the year before, down more than 1.2 million gate cubic yards. Capacity declined at amounts ranging from 1.2 million gate cubic yards in this Region to almost 52.4 million gate cubic yards in Region One: Northwestern Illinois.

Capacity declined in five Regions (Northwestern Illinois, Chicago Metropolitan, West Central Illinois, Metropolitan East St. Louis and Southern Illinois) as of January 1, 2013 at rates ranging from 1.7 percent in Region Seven: Southern Illinois to 21.5 percent in Region Four: East Central Illinois.

This Region also has the lowest capacity share of all the Regions: 3.6 percent. Regional capacity ranges from 3.6 percent in this Region to 29 percent in Region Three: Peoria/Quad Cities.

**Regional landfill life two fewer years remaining than statewide average: at 24 years**

Region Five has the fourth most remaining capacity in the state, after Region Three: Peoria/Quad Cities which has the most years of landfill life remaining, at 64 years; Southern Illinois (Region Seven) which has the second most at 53 years, and Region Four: East Central Illinois, which at 31 years of landfill life remaining. Coming in fourth is Region Five: West Central Illinois, which has 24 years of landfill life remaining. On the low end, Region One: Northwestern Illinois is in fifth place with 20 years remaining; Region Six: Metropolitan East St. Louis at sixth place with 16 years of landfill life remaining and Region Two: Chicago Metropolitan Area comes in seventh place with just 11 years remaining. The whole state has 26 years of landfill capacity left when dividing waste acceptance amounts by capacity remaining.

## Litchfield-Hillsboro Landfill\*

County	Montgomery
Municipality	Litchfield
Location	2782 Landfill Trail
Location ☎	217-324-2811
