Notice #: PB-01-11
Initial Publication: March 31, 2011

PUBLIC NOTICE OF HAZARDOUS WASTE PERMIT RENEWAL

The Illinois Environmental Protection Agency (EPA) and U. S. EPA hereby give notice of intent to renew a Resource Conservation and Recovery Act (RCRA) operating permit held by Lyondell Basell's Equistar Chemicals, LP, facility located at 8805 N. Tabler Road, Morris, Illinois. The Equistar facility manufactures plastic resins and is allowed to store hazardous wastes generated from their manufacturing processes under its current RCRA permit. This permit renewal would allow these waste storage activities to continue.

The Illinois EPA is authorized to administer the RCRA/HSWA program in Illinois; however, U.S. EPA retains authority for administering certain parts of the regulations, including those that are newly promulgated.

The interested public is invited to review copies of the permit application, draft permit decision and related fact sheet, at the **Morris Public Library, 604 Liberty Street in Morris.**

Written comments on the permit decision documents may be submitted during the 45-day comment period. Send comments on the Illinois EPA and U.S. EPA portions of the draft permit to the respective Agency contacts listed at the end of this Notice postmarked by midnight, **May 16, 2011**. In response to public requests or at the discretion of the Agencies, a public hearing can be held to clarify technical issues concerning the draft permit decision. A public hearing request must be made in writing, must state opposition to the permit and must state the nature of the issue(s) to be raised at the hearing. Written hearing requests should be sent to the Illinois EPA contact listed below. Public notice will be issued 45 days before any hearing date.

All comments received will become part of the Agencies' Administrative Records (ARs) and will be evaluated before making the final permit decision. The Agencies will respond to comments on the draft permit decision and indicate whether additional documents have been included in their respective AR's. Commenters will be notified of the final permit decision and the permit decision appeal process.

The Illinois EPA's AR, including the permit application, draft permit decision, related information and all data submitted by the applicant, is now available for public inspection by appointment only Monday through Friday between 9:00 a.m. and 5:00 p.m. Please call the Illinois EPA contact below for an appointment to view the documents at Illinois EPA's offices in Springfield.

Mara McGinnis, Public Involvement Coordinator (#5)
Illinois Environmental Protection Agency
