

NOTICE OF PUBLIC MEETING

Shoal Creek Watershed (Bond, Clinton & Montgomery Counties)

The Illinois Environmental Protection Agency (IEPA) Bureau of Water
will hold a public meeting on

Tuesday, November 19, 2013 (6:00 pm)

at the

**Breese City Hall
500 North 1st Street
Breese, Illinois**

The purpose of this meeting is to provide an opportunity for the public to comment on the proposed draft Total Maximum Daily Load (TMDL) for a segment of Shoal Creek. This 14.29 mile segment is impaired for public water supply use due to atrazine, and is classified as high priority for TMDL development. Streams will have TMDLs developed using the loading curve approach. The loading curve analysis will be based on the flow information from the river and the MCL of 3 ug/L (micrograms per litre) for atrazine. The MCL is the highest level of a contaminant that is allowed in drinking water.

This TMDL report includes data collection and analysis to determine the pollutant loading capacity and reductions necessary to meet designated uses and water quality standards. In addition, this report outlines the implementation plan, which consists of recommendations for reducing total pollutant loads that are necessary for meeting the approved TMDL for this segment of Shoal Creek.

Information from the previous TMDL stage one report for the Shoal Creek watershed will be utilized for this TMDL report. This information includes watershed characterization, such as land use and tillage information. The Stage 1 report can be found at <http://www.epa.state.il.us/water/tmdl/report-status.html>.

The Illinois EPA implements the TMDL program in accordance with Section 303(d) of the federal Clean Water Act. A TMDL is the sum of the allowable amounts of a single pollutant (atrazine) that a waterbody can receive from all contributing sources and still meet water quality standards or designated uses.

The draft Shoal Creek Atrazine TMDL report will be available on-line at www.epa.state.il.us/public-notice. A hard copy of the draft report will also be available by request from the Illinois EPA or may be found at Breese City Hall during business hours. For more information, contact Jennifer Clarke (Planning Unit) at 217-782-3362 or Jennifer.Clarke@Illinois.gov.

Closure of the Meeting Record

The meeting record will close as of midnight, December 19, 2013. Written comments need not be notarized but must be postmarked before midnight and mailed to:

Abel Haile, Supervisor
