CID is monitoring and maintaining its closed landfill units under the RCRA permit. The modification requests are to change the leachate analysis constituent list and sampling frequency for both the Area 3 and Area 4 landfills, and to allow filling and vegetating of perimeter ditches at the foot of Area 4 landfill in order to provide sheet flow drainage off of the closed, capped unit.

The interested public is invited to review copies of the permit application, draft permit decision and related fact sheet, at the following location:

Hegewisch Branch, Chicago Public Library
3048 E. 130th Street
Chicago, IL. 60633

Send written comments and/or hearing requests on the draft permit to the Agency contact listed below postmarked by midnight, **May 29, 2014**.
