The Illinois Environmental Protection Agency (Illinois EPA) gives notice of its intent to approve a Resource Conservation and Recovery Act (RCRA) Remedial Action Plan permit (draft permit) for Andrew Corporation. The closed 75-acre telecommunications equipment manufacturing site is located at 10500 West 153rd Street in Orland Park. Andrew Corporation ceased operations in 2007 and in 2023, Orland Park Lake Ventures LLC (OPLV) took ownership of the site.

The permit would authorize OPLV to construct and operate three staging piles for temporary storage of approximately 69,000 cubic yards of remediation waste while OPLV conducts remediation of soil contaminated with volatile organic compounds, metals, and polychlorinated biphenyls under the Illinois EPA Site Remediation Program. The site will be developed for residential use when remediation is complete.

PUBLIC COMMENT PERIOD AND PUBLIC HEARING

On July 7, 2026, the Illinois EPA issued a public notice with a 45-day written public comment period that ended August 21, 2026.

As requested during the initial public comment period, the Illinois EPA is holding an additional public comment period and public hearing to offer an opportunity to the public to provide written and/or oral comments on this proposed action prior to making a final decision. After consideration of any comments received, the Illinois EPA will make a final decision on this proposed action. Please visit the Illinois EPA website to learn more about how to submit an effective comment: <https://epa.illinois.gov/topics/community-relations/public-notices/public-comment.html>.

All public comments received during the public comment period will become part of the Administrative Record (AR) and will be evaluated by the Illinois EPA in making the final decision on the draft permit. The Illinois Pollution Control Board rules that govern the issuance of the permit are found at 35 Ill. Adm. Code 703 Subpart H. The Illinois EPA will respond to public comments and indicate whether additional documents have been included in the AR. Commenters will be notified of the final permit decision and the permit decision appeal process.
