The Illinois Environmental Protection Agency (Illinois EPA) hereby gives notice of its intent to approve a Resource Conservation and Recovery Act (RCRA) Remedial Action Plan permit (RAPP) for Andrew Corporation. The closed 75-acre telecommunications equipment manufacturing site, referred to as Andrew Corporation, is located at 10500 West 153rd Street in Orland Park. Andrew Corporation ceased operations in 2007 and in 2023, Orland Park Lake Ventures LLC (OPLV) took ownership of the site. The draft RAPP will authorize OPLV to construct and operate three staging piles for temporary storage of approximately 69,000 cubic yards of remediation waste while OPLV conducts remediation of soil contaminated with volatile organic compounds, metals, and polychlorinated biphenyls under Illinois EPA's Site Remediation program (SRP). The site will be developed for residential use when remediation is complete.

The Illinois EPA is accepting written public comments on the draft RAPP. After consideration of any comments received, the Illinois EPA will make a final decision on the permit.
