

Illinois Environmental Protection Agency

Uniform Notice of Funding Opportunity (NOFO)

All-Electric Class 4-8 Local Freight Trucks

September 10, 2025

	Data Field	
1.	Awarding Agency Name:	Illinois Environmental Protection Agency
2.	Agency Contact:	Darwin Burkhart at epa.vwgrants@illinois.gov
3.	Announcement Type:	Initial Announcement
4.	Type of Assistance Instrument:	Grant
5.	Funding Opportunity Number:	26-1697-09
6.	Funding Opportunity Title:	Driving a Cleaner Illinois – Volkswagen
7.	CSFA Number:	532-10-1697
8.	CSFA Popular Name:	Driving A Cleaner Illinois - Volkswagen
9.	CFDA Number:	N/A
10.	Anticipated Number of Awards:	Up to 65 trucks
11.	Estimated Total Program Funding:	Up to \$18,000,000 (Round Nine Funding for all three priority areas)
12.	Award Range:	Minimum award amount \$100,000
13.	Source of Funding:	☐ Federal or Federal Pass-Through ☐ State ☒ Private/Other Funding
14.	Cost Sharing or Matching Requirement:	Yes
15.	Indirect Costs Allowed:	No
16.	Posted Date:	September 10, 2025
17.	Application Range:	September 10, 2025 until funding is depleted
18.	Technical Assistance Session:	No

Illinois Environmental Protection Agency
Uniform Notice of Funding Opportunity (NOFO)
All-Electric Class 4-8 Local Freight Trucks

A. Notice of Funding Opportunity and Application Information

This Notice of Funding Opportunity (NOFO) is to inform potential applicants of the availability of funds from the Volkswagen Environmental Mitigation Trust Agreement (Trust or Trust Agreement). Under this NOFO, the Illinois Environmental Protection Agency (Illinois EPA or Agency) will fund a portion of the eligible costs associated with the replacement (not repower) of eligible existing and licensed on-road diesel Class 4-8 medium- and heavy-duty local freight trucks (at least 14,001 lbs. GVWR) or Class 8 port drayage trucks (at least 33,001 lbs. GVWR). Each new replacement truck must be of the same type and class as the retired truck and be a licensed on-road all-electric Class 4-8 medium- and heavy-duty local freight truck or a Class 8 port drayage truck that operates at a shipping port (hereinafter “all-electric trucks” or “electric trucks”) located and operated in any of the three priority areas outlined in the Beneficiary Mitigation Plan (BMP) and in this NOFO. The types of trucks covered under this NOFO are those used to haul and deliver freight or cargo in local areas within the priority area, including delivery/box trucks, waste haulers, landscape trucks, dump trucks, freight/transport trucks, and Class 8 port drayage trucks (e.g., Class 4-7 port drayage trucks are ineligible). If the existing diesel truck to be replaced and the proposed new electric truck is not routinely hauling any type of freight or cargo by design or actual use, it is ineligible for this NOFO. In addition to providing funding for new all-electric trucks, Illinois EPA will also fund a portion of necessary new Level 2 or DCFC charging equipment if charging infrastructure is needed.

Each application under this NOFO must include:

- One (1) Uniform Grant Application.
- One (1) General Application Form.
- A New All-Electric Class 4-8 Local Freight Truck Application Form for each proposed new all-electric truck (e.g., if the application is for three all-electric trucks, then three individual truck application forms will need to be included).
- A Charging Infrastructure Form - if funding for charging equipment infrastructure is necessary, provide a separate form for each requested new charging equipment infrastructure location needed to charge the proposed all-electric trucks (e.g., if charging equipment is needed at two separate locations, then two forms will need to be included).
- One (1) Uniform Grant Budget Template.
- One (1) Grantee Conflict of Interest Disclosure.
- One digital photo of each existing diesel truck type included in the project that will be replaced by a new electric truck of that same type (e.g., if the application proposes to replace four existing diesel trucks of the same type, such as a Class 7 delivery truck, then only one photo of the existing diesel truck type is needed if they have the same chassis and/or trailer configuration, as applicable). If the types of existing diesel trucks to be replaced vary by class, size, or configuration, then include a digital photo of each type.

A business or government applicant can only be addressed by one application.

- Applications must be complete; applicants must use the above referenced forms.
- Application forms must be signed by an authorized person on behalf of the applicant.

An application must be submitted electronically to epa.vwgrants@illinois.gov.

There is no set deadline to submit an application. Applications will be accepted on a first-come, first-serve basis until funding is depleted. See the Driving a Cleaner Illinois website for announcements regarding funding availability.

Incomplete applications or applications not on the requisite forms will be denied.

Any questions must be in writing and directed to epa.vwgrants@illinois.gov.

In completing projects under this NOFO, applicants must comply with all applicable federal, state, and local laws and ordinances and regulations thereunder.

The State of Illinois is not obligated to make an award as a result of this NOFO.

B. Funding Information

The estimated total program funding for this NOFO is up to \$18 million.

Funding is private monies under the Trust for State Beneficiaries established by Volkswagen.

This funding opportunity is consistent with the Trust Agreement and the Agency's existing BMP under the Trust. Illinois is a beneficiary, and the Illinois EPA has been designated the lead agency to administer the funds allocated to Illinois under the Trust Agreement.

Applicants may not use Trust funds to satisfy obligations that are mandated by law or regulation, by any court order or decree, or by other agreement of any kind to acquire all-electric trucks.

Applicants may not combine funding from this program with other funding such that they receive in excess of 100% funding for any project.

Applicants may use other funding (federal, state, or other) as part or all of their mandatory cost share, provided such other funding source allows for it. However, applicants may not utilize any other funding sources awarded by Illinois EPA in satisfying the mandatory cost share. In addition, applicants may take advantage of a point-of-sale incentive offered by other entities as long as these are shown as a credit that reduces the purchase price on the bill of sale or purchase invoice submitted to the Agency.

C. GATA Requirements

An applicant must satisfy qualification requirements through the Grant Accountability and Transparency Act (GATA) Grantee Portal described in Section D. The Illinois EPA is required by GATA to conduct a risk assessment of the applicant. Additional information may be required at that time from the successful applicant.

D. Eligibility Requirements

The Illinois EPA will accept applications:

- For eligible new all-electric trucks and any necessary charging infrastructure for the trucks requested in this application.
- From a business or government entity located in the following VW priority area and the eligible trucks will operate in the priority area:

Priority Area 1: Cook, DuPage, Kane, Lake, McHenry, and Will counties, Oswego Township in Kendall County and Aux Sable and Goose Lake townships in Grundy County

Priority Area 2: Madison, Monroe, and St. Clair counties

Priority Area 3: Champaign, DeKalb, LaSalle, McLean, Peoria, Sangamon, and Winnebago counties

- From entities that will own the new all-electric trucks and new charging infrastructure (if requested). Entities that lease their trucks are ineligible to be the applicant as the owner of the trucks must be the applicant.

- Where both the existing diesel truck to be replaced and the proposed new all-electric truck are licensed to operate on public roadways and are Class 4-8 local freight trucks (at least 14,001 lbs. GVWR) or Class 8 port drayage trucks (at least 33,001 lbs. GVWR), are of the same class, are of the same truck-type, and used to haul and deliver freight or cargo within the same priority area (see “Important Note” below regarding older diesel trucks for applicants located in Priority Area 3). Eligible truck types include delivery/box trucks, waste haulers, landscape trucks, dump trucks, freight/transport trucks, and Class 8 port drayage trucks that operate at a shipping port (e.g., Class 4-7 port drayage trucks are ineligible). If the existing diesel truck to be replaced and the proposed new electric truck are not routinely hauling any type of freight or cargo by design or actual use, it is ineligible for this NOFO.
- Where each existing truck is operational at the time the application is submitted.
 - Each existing diesel truck to be replaced must be engine Model Year 1992-2009.
 - Each existing diesel truck must be scrapped within 90 days of the new truck being placed into service.
- **Important Note:** For this VW Round 9 NOFO, in the event the applicant does not currently own an eligible existing diesel truck that meets the above criteria to replace and scrap for each acquisition of a new electric truck, the applicant may acquire an eligible existing diesel truck from another entity in which the truck is still in operation in the same priority area. For an applicant located in Priority Area 1 (Chicago Area), the older diesel truck to acquire and scrap can come from any of the counties or townships listed above as Priority Area 1 counties. For an applicant located in Priority Area 2 (Metro-East area), the older diesel truck to acquire and scrap can come from any of the counties listed above as Priority Area 2 counties. For an applicant located in Priority Area 3, the older diesel truck to acquire and scrap can come from within the same county as the applicant or any county that shares a full or partial border with the applicant’s county (e.g., if an applicant is located in Sangamon County, an eligible older truck can be acquired to scrap from another entity located in the bordering counties of Menard, Logan, Macon, Christian, Montgomery, Macoupin, Morgan, and Cass). When acquiring an older truck from another entity, the applicant must also obtain from the previous owner the operational history information requested in Section Three (3.8 and 3.9) of the individual truck application form.
- Where each proposed new all-electric truck must be from the engine Model Year in which the project occurs (or later) or one engine model year prior.
- For both the existing diesel truck to be replaced and the proposed new all-electric truck, at least 50% of the annual operational hours are/will be in the same priority area.
- That satisfies qualification requirements through the GATA Grantee Portal at www.grants.illinois.gov prior to being offered an award.
- GATA qualification requirements prior to receiving a Notice of State Award include:
 - Possession of a valid Unique Entity ID (UEI) from the System for Award Management (www.SAM.gov).
 - Current and valid registration with the System for Award Management (SAM) (www.SAM.gov).
 - Approved FY 2026 Fiscal and Administrative Risk Assessment (ICQ).
 - In good standing with the Illinois Secretary of State.
 - Not currently debarred by the State of Illinois and/or federal government.
 - Not on the Federal Excluded Parties List.
 - Not on the Illinois Stop Payment List.
 - Not on the sanctioned party list of the Dept. of Healthcare and Family Services.
 - Not on the SAM.gov exclusion list.

E. Eligible and Ineligible Costs for Reimbursement

Eligible Costs

- The base price of the new all-electric truck including all necessary equipment appropriate for the primary functions of the type of truck.
- Electric charging infrastructure for Level 2 or DCFC equipment if necessary to support the project.

Ineligible Costs

- Options, add-ons, upgrades, taxes, title, license, and items unrelated to the primary functions of the new all-electric truck.
- Infrastructure if it is already available and adequate to support the new all-electric truck.
- Options, other equipment, labor, taxes, other fees, or make-ready improvements related to the purchase and installation of the charging infrastructure.
- Cost to scrap the existing diesel truck.
- Applicant's administrative costs.
- Incurred costs prior to the execution date of the grant agreement.
- Indirect costs.

F. Award Amount

- The grant award for a "government applicant" is 75% of eligible cost per all-electric truck.
- The grant award for a "non-government applicant" is 50% of eligible cost per all-electric truck.
- Necessary charging infrastructure to charge the trucks in the application will be awarded at 75% of eligible costs for a government applicant and 50% of eligible costs for a non-government applicant.
- In-kind contributions are not acceptable for meeting the required cost share.

**"Government applicant" means a State or local government agency (including a school district, municipality, city, county, special district, transit district, joint powers authority, or port authority, owning fleets purchased with government funds), and a tribal government or native village.*

G. Application Review and Selection

All applications will be reviewed by Illinois EPA for administrative completeness and against criteria identified in this NOFO, in compliance with GATA and 2 CFR 200 Uniform Requirements.

The administrative completeness review assesses whether the requirements in this NOFO, as further addressed in the application forms, have been met. The application will be denied if any requirements are not met as required in this NOFO or the related forms. **Failure to satisfy eligibility requirements, or failure to use or to fully and appropriately complete the forms or to timely submit the application, will result in a denial of the application.**

Complete and eligible applications will be reviewed and selected on a first-come, first-serve basis until funding is depleted.

The email date and timestamp will determine the order in which applications are to be selected in the event there is insufficient funding to select all eligible applications received on the same day.

Treatment of Cost Sharing

Cost-sharing is mandatory under this program but will not be considered in any other way in the application evaluation.

Agency Review and Error Correction

If the Agency determines that an applicant incorrectly calculated or indicated the project cost, applicant cost share, and/or total funding request based on the applicable cost estimate, required cost shares, and eligible costs outlined in Sections E and F, and the Agency can correct the error, the application will not adversely affect completeness. If the applicant is selected for a grant, the Agency will contact the applicant and request a decision from the applicant as to whether it will accept the award based on the Agency's determination of the project cost, applicant cost share, and/or total funding requested.

Appeal Process

An appeal for a denied application is available to applicants but is limited to the evaluation process. An appeal must be submitted in writing to the following address:

Illinois Environmental Protection Agency
Attn: Driving a Cleaner Illinois Program #40
P.O. Box 19276
Springfield, Illinois 62794-9276

Appeals must be received within 14 calendar days after the date that the grant award notice has been published by the Illinois EPA to grants.illinois.gov. The written appeal should include at a minimum the following: the name and address of the appealing party, identification of the grant, and a statement of reasons for the appeal. The Agency will acknowledge receipt of an appeal within 14 calendar days from the date the appeal was received. When an appeal is received, the execution of all grant agreements that the Illinois EPA intends to make under this NOFO shall be stayed until the appeal is resolved, unless the Illinois EPA determines the needs of the State require moving forward with execution of the grant agreements. The State need determination and rationale shall be documented in writing.

The Agency will respond to the appeal within 60 days or supply a written explanation to the appealing party as to why additional time is required. The appealing party must supply any additional information requested by the Illinois EPA within the time period set in the request. The Illinois EPA will resolve the appeal by means of written determination, which shall include, but not be limited to, review of the appeal, appeal determination, and rationale for the determination.

H. Award Administration Information

Notice of State Award

Each successful applicant will receive a Notice of State Award, which specifies the funding terms and specific conditions resulting from pre-award risk assessments. The Notice of State Award will be distributed through the Grantee Portal and must be accepted through the portal before a Grant Agreement can be sent to the applicant.

A Notice of State Award is NOT an authorization to begin project activities and incur costs.

No costs can be incurred by the applicant until the Grant Agreement is signed by both the Grantor and Grantee. Also, a request for reimbursement cannot be submitted until after the full project is completed.

Grant Agreement

Once all the final requirements have been completed, the Grant Agreement between the Illinois EPA and the applicant will be sent to the applicant for signature. Once the agreement is fully executed by the Illinois EPA, a copy of the fully executed agreement will be returned to the Grantee and the Grantee may then begin the project by placing orders and commencing other related purchasing tasks.

Reporting Pre-Project Completion and Annual Certifications

All grantees will be required to submit quarterly reports to the Illinois EPA describing the progress of the projects and costs incurred. Grantees will also be required to submit a close-out report including task completion with dates and costs incurred and supporting information. Specific reporting requirements will be identified within the Grant Agreement. In addition, grantees will be required to provide an annual certification to the Agency for five years after project completion regarding the new all-electric trucks and infrastructure.

Templates of reports and annual certifications will be provided to the grantees.

General Application Form

SECTION ONE			Contact Information	
Applicant/Owner				
1) Applicant Name:		2) Federal Employer Identification Number (FEIN):		
3) Street Address:				
4) City:	5) County:		6) Zip Code:	
7) Contact Name:	8) Contact Title:		9) Contact Phone Number:	
10) Contact Email Address:				
11) Applicant is:		☐ Government		☐ Non-Government
12) Applicant is the Owner of the Existing Diesel Trucks in this Application		☐ Yes		☐ No
13) Applicant will be the Owner of the Proposed Electric Trucks in this Application		☐ Yes		☐ No
Operator (if different from owner)				
14) Operator Name:		15) Federal Employer Identification Number (FEIN):		
16) Street Address:				
17) City:	18) County:		19) Zip Code:	
20) Contact Name:	21) Contact Title:		22) Contact Phone Number:	
23) Contact Email Address:				

SECTION TWO		Project Information	
		Yes	No
1)	Are you mandated by law or regulation, by any court order or decree, or by other agreement of any kind to acquire all-electric trucks?	☐	☐
2)	The existing diesel trucks to be replaced are operational and engine MY 1992-2009.	☐	☐
3)	The existing diesel trucks and the proposed new all-electric trucks are Class 4-8 local freight trucks or Class 8 port drayage trucks used to haul and deliver cargo and freight.	☐	☐

SECTION THREE Overview of Proposed Project		
1) Number of New All-Electric Trucks in the Application: _____		2) A separate New All-Electric Class 4-8 Local Freight Truck Application Form is included for each proposed all-electric truck ☐ Yes ☐ No
3) There is adequate existing charging infrastructure for this proposed project. If "No," include Infrastructure Form ☐ Yes ☐ No		
4) Have you purchased any of the proposed trucks or charging infrastructure in this Application? ☐ Yes ☐ No		
5) Total Eligible Project Cost: \$ _____	6) Applicant's Cost Share: \$ _____	7) Total Eligible Funding Request: \$ _____

Signature Block	
This certification must be signed by a responsible official. Applications without a signed certification will be deemed incomplete. I certify under penalty of law that, based on information and belief formed after reasonable inquiry, the statements and information contained in this Application are true, accurate, and complete. Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony (415 ILCS 5/44(h)).

New All-Electric Class 4-8 Local Freight Truck Application Form

SECTION ONE		Cost and Funding Information	
1) Eligible Truck Cost: \$	2) Applicant Cost Share: (Difference in Eligible Cost and Eligible Funding Request) \$	3) Eligible Funding Request: (See Section F) \$	

SECTION TWO		Type of Existing Diesel Truck and Proposed New All-Electric Truck	
☐ Delivery/Box ☐ Waste Hauler ☐ Port Drayage (Class 8 only) ☐ Landscape Truck ☐ Dump Truck			
☐ Freight/Transport			

SECTION THREE		Existing Diesel Truck Information (truck to be replaced and scrapped)	
General Information			
1) Vehicle Class/Weight: ☐ 4 ☐ 5 ☐ 6 ☐ 7 ☐ 8 GVWR _____			
2) Manufacturer:		3) Model:	
4) Engine Model Year:		5) Vehicle Identification Number (VIN):	
6) Truck is fueled with diesel fuel: ☐ Yes ☐ No		7) Truck will be scrapped as required: ☐ Yes ☐ No	
Operational History			
8) Annual Mileage: ☐ 2022 _____ miles ☐ 2023 _____ miles ☐ 2024 _____ miles			
9) Annual Fuel Usage: ☐ 2022 _____ gallons ☐ 2023 _____ gallons ☐ 2024 _____ gallons			
Location of Operation-Existing Diesel Truck			
10)	Existing Diesel Truck has operated in the identified county/counties in 2022, 2023, and 2024 and has operated within the Priority Area at least 50% of its annual operational hours: Priority Area 1 (Chicago Area): ☐ Cook County ☐ DuPage County ☐ Kane County ☐ Lake County ☐ McHenry County ☐ Will County ☐ Aux Sable Township-Grundy County ☐ Goose Lake Township-Grundy County ☐ Oswego Township-Kendall County Priority Area 2 (Metro-East Area): ☐ Madison County ☐ Monroe County ☐ St. Clair County Priority Area 3: ☐ Champaign County ☐ DeKalb County ☐ LaSalle County ☐ McLean County ☐ Peoria County ☐ Sangamon County ☐ Winnebago County ☐ A county that shares a border with one of the above counties in Priority Area 3		

Proposed New All-Electric Truck Information

1) Vehicle Class: ☐ 4 ☐ 5 ☐ 6 ☐ 7 ☐ 8

2) Manufacturer: _____ 3) Model: _____ 4) Engine Model Year: _____

5) Fuel Type: ☐ All-Electric

6) Proposed New All-Electric Truck will operate in the following counties and will operate within the Priority Area at least 50% of its annual operational hours:

☐ Cook County ☐ DuPage County ☐ Kane County ☐ Lake County ☐ McHenry County

☐ Will County ☐ Aux Sable Township-Grundy County ☐ Goose Lake Township-Grundy County

☐ Oswego Township-Kendall County

☐ Madison County ☐ Monroe County ☐ St. Clair County

☐ Champaign County ☐ DeKalb County ☐ LaSalle County ☐ McLean County

☐ Peoria County ☐ Sangamon County ☐ Winnebago County

As described in Section A, **be sure to include in your email transmitting the application a digital photo for each type of diesel truck to be replaced** in the application (if necessary, send another email with the digital photos due to file size limitations).

Charging Infrastructure Form

Complete a separate form for each location for the requested infrastructure

SECTION ONE Proposed Location		
1) Street Address:		
2) City:	3) County:	4) Zip Code:
5) Applicant will be the owner of the proposed new electric charging equipment. ☐ Yes ☐ No		

SECTION TWO Infrastructure Type and Cost/Funding Information	
1) Type of Charging Infrastructure: ☐ Level 2 ☐ Direct Current Fast Charging (DCFC)/Level 3	
2) Total Eligible Charging Equipment Cost for this Location (See Section E): \$	3) Eligible Funding Request (see Section F): \$

SECTION THREE Adequacy of Charging Infrastructure
There will there be adequate charging capability for the new electric trucks with the addition of the infrastructure detailed on this form. ☐ Yes ☐ No
