Springfield, Illinois 62704

APPLICATION DEADLINE

The rebate application must be postmarked within 90 days after the vehicle purchase date, **and** it must be postmarked on or after January 21, 2025, but no later than April 30, 2025, for this cycle.

COMPLETENESS REQUIREMENT

All information requested in the application must be provided in legible fashion. Illegible, incomplete, or late applications will be denied.

FUND AVAILABILITY

All applications for rebate are subject to fund availability.

APPLICATION

Section 1: Applicant Information

- The applicant must be an individual and not a business or government entity or other entity such as a trust. Provide your name, physical street address (no P.O. Box), email address (if available), and your daytime or cell phone number. Provide your mailing address if different from the physical address. This physical address will be used to confirm the Illinois residency requirement. Note that the IRS W-9 or IRS W-8 information **must match** the information on file with the IRS. Rebate checks issued by the Comptroller will be mailed to the address on your W-9 or W-8 form, which must be the physical or mailing address provided in this section of the application. The cell phone number is for contact purposes should that become necessary.
- Check each of the statements acknowledging that you understand and meet the program eligibility criteria to receive a rebate.

Section 2: Type of Application

- Check the first box if this is your original (initial) rebate application.
- Check the second box if you have been issued a Denial Letter because your original application was incomplete and are resubmitting with additional information.

Section 3: Vehicle Information

- Check whether this application is for an electric vehicle or an electric motorcycle.
- Check whether you purchased a NEW or USED/PRE-OWNED electric vehicle or electric motorcycle from an Illinois dealer.
- Insert the purchase date of the vehicle.
- Insert the Make (manufacturer), Model, and Model Year of the vehicle or motorcycle.
- Insert the entire Vehicle Identification Number (VIN).

Section 4: Dealership Information

This section should be completed by the selling Illinois dealership. Enter the name of the dealership, the dealership's license number issued by the Illinois Secretary of State, and the dealership's address and phone number. A representative of the dealership is to certify that the information in Sections 3 and 4 of the application are true and accurate with signature and printed name.

Section 5: Documentation

Check each of the statements to ensure that the required documents and forms are included with the application. Legible copies of the documents are acceptable.

Proof of purchase documents must account for all money outstanding owed to the dealer on the Bill of Sale.

A copy of the vehicle registration or the temporary permit from the dealership are acceptable. The Illinois Secretary of State application for vehicle registration is not acceptable documentation.

The links to the required IRS W-9 Form (if you have a social security number) and IRS W-8 Form (if you have a taxpayer identification number) are provided on the website. The Office of the Illinois Comptroller requires an individual's social security number or a taxpayer identification number to process payment and issue a state check. The application cannot be processed without a completed W-9 or W-8, and as such would be deemed incomplete and denied.

The IRS W-9 or IRS W-8 information **must match** the information on file with the IRS. Rebate checks issued by the Comptroller will be mailed to the address on your W-9 or W-8 form, which must be the physical or mailing address provided in Section 1 of the application.

Section 6: Low-Income Certification

The Electric Vehicle Rebate regulations define “low income” as persons and families whose income does not exceed 80% of the State median income for the current State fiscal year (July 1, 2024 - June 30, 2025), as established by the U.S. Department of Health and Human Services. The regulations further provide that to qualify as "low income," the total combined gross income of the applicant and all persons over the age of 18 living at applicant’s residence and related to applicant by blood, marriage, or adoption cannot exceed 80% of the State median income.

The applicant’s household count is to be determined by totaling the applicant and any individual or group of individuals living with the applicant as one economic unit, which may include persons under the age of 18 and persons unrelated to applicant by blood, marriage, or adoption.

The applicant’s income level is to be determined by totaling the combined gross income of the applicant and all persons over the age of 18 living at applicant’s residence and related to applicant by blood, marriage, or adoption.

After determining the applicant’s household count and income level as previously noted, find the appropriate calculated household count in the table below. If the applicant’s calculated gross income level is at or below the corresponding income level threshold, the applicant is considered low income. For example, an applicant whose household count is 3 must have an income level at or below the income level threshold of \$82,075 to be considered low income.

Household Count	Income Level
1	\$50,809
2	\$66,442
3	\$82,075
4	\$97,709
5	\$113,342
6	\$128,976
7	\$131,907
8	\$134,838
9	\$137,769
10	\$140,701

Section 7: Authorization

Please read the authorization certification and, if in agreement, sign, print name, and date the application.

The failure to sign the certification will cause the application to be deemed incomplete. This incompleteness will result in denial of the application.
