passing of the senate bill and the fines that will help the Department of Natural Resources. The minutes will be noted to reflect that change.

Discussion of Draft Work Product

Charles Hostetler opens the floor for discussion of the Draft Work product and asks if everyone has a copy of the draft work product that include some of the worksheets. Claudia Lenhoff comments on the Household Hazardous Waste Worksheet. She thanks George Roadcap for drafting that worksheet. She notes that the only item she sees missing is personal care products. George Roadcap thanks Claudia for those comments and he will include that in the next version. Charles Hostetler comments that the Work Product is just about complete minus a few of the worksheets. He will be discussing that at the Full Task Force today and asks the sub-committee if there are any other comments on the draft work product?
