

Formal Public Meeting – Sterigenics Draft Construction Permit

August 1, 2018

6:00 pm – 9:00 pm

The meeting is to accept verbal comments on the draft construction permit.

A stenographer will be transcribing a verbatim record of the meeting.

Procedures will be employed to allow as many people to provide oral comments on the draft construction permit as possible.

- Attendees will register and indicate whether they would like to speak.
- Each speaker will be called to the podium and given up to 2 minutes to ask a question or make comment.
- When called to the podium, speakers should state and spell their name.
- There will be a timer so that speakers are able to determine how long they have to provide comment.
- Speakers should not be repetitious to allow us to get through as many speakers as possible.

The meeting moderator will call each attendee who wishes to speak to the podium in the order of registration. The moderator will endeavor to call to the podium everyone that indicates a desire to speak. However, if time does not allow everyone to speak, written comments are being accepted until August 15, 2019.

Disruptions, such as clapping or cheering, will slow the proceedings and will limit the number of speakers.

Written comments are due August 15, 2019.
