Construction Permit (23080015); Federally Enforceable State Operating Permit (08090025)

To Distribution List:

In accordance with the Illinois EPA's Environmental Justice Policy, the Office of Environmental Justice wants to provide you with information about potential actions. The Illinois EPA is sending this letter to notify you of applications received by the Bureau of Air (BOA).

The Illinois EPA has received applications for a Construction Permit and revised Federally Enforceable State Operating Permit (08090025) for J&M Plating Co located at 4500 Kishwaukee Street in Rockford. The application for a Construction Permit revision is to extend the time needed for testing of their coating line. The original construction permit was initially issued for the installation of two furnaces and one coating line. The source has also applied for a renewal of Federally Enforceable State Operating Permit, which will incorporate construction permit 23080015.

The applications are currently under review by the BOA. FESOP renewals require public notice. Once ready for review, the Illinois EPA will post a public notice and draft permit on its website (<https://epa.illinois.gov/public-notices/boa-notices.html>) and will accept comments during the public notice period. The procedures for public participation in the Air Pollution Control Permit Program can be found at 35 Ill. Adm. Code Part 252. Inquiries concerning the availability of public comment or hearing on this matter may be addressed to Sarah Brubaker, Community Relations, at (217) 786-0790, sarah.brubaker@illinois.gov.
