LEAD SERVICE LINE REPLACEMENT FINAL CERTIFICATION

The Illinois Environmental Protection Agency (Illinois EPA) Bureau of Water is seeking to capture data on lead service line replacement projects funding by the Drinking Water State Revolving Fund. Once construction activities are complete, please use the table below to report the initial estimate of lead service lines (LSLs) that were planned for replacement, the final count of LSLs replaced, and the construction start and completion dates. Any corrections should be reported by submitting a revised form. For multi-phased projects, please submit a separate form for each subsequent phase of construction.

To return the form via mail, use the following address: Illinois EPA Infrastructure Financial Assistance Section, 2520 West Iles Avenue, Springfield, IL 62794-9276. Additionally, completed forms and all related questions may be emailed to Ellen.Jordal@Illinois.gov.

LOAN APPLICANT: _____ LOAN NUMBER: _____

INITIAL ESTIMATE OF LSLs TO BE REPLACED	FINAL COUNT OF LSLs REPLACED

CONSTRUCTION START DATE	CONSTRUCTION COMPLETION DATE
