Re: 2023 Illinois EPA Electronic Waste Program Plan Review

Dear Jason Linnell,

This letter is to inform you that the Illinois EPA has received the manufacturer e-waste program plan for program year 2023 ("the program plan") submitted on behalf of the Electronics Recycling Representative Organization ("ERRO") Clearinghouse in accordance with the Illinois Consumer Electronics Recycling Act ("CERA"). Section 1-25 of CERA establishes the required elements of the program plan and states, in relevant part, that the plan shall include, at a minimum:

- The contact information for the individual who will serve as the point of contact for the manufacturer e-waste program ("the program");
- The identity of each county that has elected to participate in the program during the program year;
- For each county, the location of each program collection site and one-day collection event included in the program for the program year;
- The collector operating each program collection site and one-day collection event included in the program for the program year;
- The recyclers the manufacturers plan to use during the program year;
- An explanation of any deviation by the program from the standard program collection site distribution set forth in Section 1-15(a) of CERA; and
- A certification that the methodology used for allocation responsibility for the transportation and recycling of residential consumer electronic devices by manufacturers participating in the clearinghouse program year will be in compliance with Section 1-84.5 of CERA.

The Illinois EPA has reviewed the submitted program plan and determined that it contains these required elements. Consequently, the program plan is complete. The program plan also included other information, including, a document identified as ERRO Illinois Manufacturer Clearinghouse Program Rules. That document and other items not specifically identified above were not within the scope of the Illinois EPA's review and, accordingly, were not considered part of the submission for the purposes of approving or denying the program plan.

Section 1-25(b) of CERA requires the Agency to review the program plan and determine whether the collection sites and one-day collection events specified in the program plan satisfy the convenience standard set forth in Section 1015 of CERA. The Illinois EPA reviewed the program plan and determined that it does satisfy the convenience standard set forth in Section 1-15 of CERA. Consequently, the program plan is **approved**.

Please contact the Illinois EPA Electronic Waste Coordinator, Archana Uppuluri at archana.uppuluri@illinois.gov if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'James Jennings', with a large, sweeping flourish at the end.

E-Waste Program Plan for 2023

July 1, 2022

Program Plan Contents

1. Point of Contact Information
2. Identity of Opt-In County
3. Locations of Each Site/Event in Each Opt-In County
4. Recyclers to Be Used
5. Deviation from the Standard Program Collection Site Distribution
6. Allocation Methodology Certification
7. List of Manufacturers Intending to Comply through Clearinghouse
8. Exhibit A: 2023 ERRO Illinois Manufacturer Clearinghouse Program Rules
9. Exhibit B: 2023 Clearinghouse Collection Sites/Events and Recyclers
10. Exhibit C: Email Confirmations of Deviations from Standard Program Collection Site Distribution

1. Point of Contact Information

The point of contact for the Electronics Recycling Representative Organization (“ERRO”) Manufacturer Clearinghouse is:

Jason Linnell
 Executive Director
 National Center for Electronics Recycling
 161 Studio Lane
 Vienna, WV 26105
 Office: 304-699-1008
 Cell: 304-374-8144
jlinnell@electronicsrecycling.org

2. Identity of Opt-In Counties

Illinois EPA distributed a form in early 2022 to eligible Illinois counties and municipalities to opt-in to the manufacturer program under CERA for 2023. As a result of this process, 47 units of government elected to participate in the program. Below is a listing of the counties and other units of government who filed opt-in forms. The ERRO Manufacturer Clearinghouse continued operation and development of a plan for 2023, using the Rules (Exhibit A) for how manufacturers would divide the responsibility for providing programs to those opt-in counties. Manufacturers had the option to participate through a “group plan” if their obligation percentage was over 3%. All manufacturers decided to fulfill their recycling responsibilities through one of six group plans, with the exception of two retailer-manufacturers. ERRO assigned registered group plans to each county/municipality as noted below. Plans submitted collection sites or events to cover the minimum required under CERA or made other arrangements with the County/municipality. The attached Exhibit B notes which sites/events were selected that either meets/exceeds the minimum number required or notes deviations with County agreements.

County	ERRO -Assigned Group Plan	Required Minimum Number of Sites per CERA
Bond	Dynamic	1
Boone	URT	1

Winnebago	URT	3
Municipality	ERRO -Assigned Manufacturer/Group	Required Minimum Number of Sites per CERA
City of Chicago	MRM	10

3. Locations of Each Site/Event in Each Opt-In County

The ERRO Administrator has assigned each of the above counties and municipalities to one of six registered group plans working directly with a recycler or recyclers, or who are recyclers themselves.

The ERRO Administrator attempted to honor existing relationships and preferences in the assignments – including those noted on the County opt-in forms - while balancing each collective group’s obligation percentage described in Section 6 below. In most cases, the group plan assigned for 2023 is the same as 2022. However, due to changes in the individual manufacturer obligation percentages and having one additional group plan from 2022, this was not possible in all cases. The list of each collection site/event for each opt-in county is included in the attached Exhibit B. For several counties, the actual date and location of collection events has yet to be determined, but the city and number of events agreed to by its assigned group plan/manufacturer is noted wherever possible.

4. Recyclers to Be Used

The list of recyclers to be used by all manufacturers and group plans in the Clearinghouse is included in Exhibit B along with the collection locations. In some cases, multiple recyclers are noted. In all cases, group plans and manufacturers under the Clearinghouse understand that recyclers must be registered and meet the requirements under CERA.

5. Deviation from the Standard Program Collection Site Distribution

Several counties proposed deviations from the collection site distribution requirements in their proposed list of sites/events. Many of these involve substituting collection events for one permanent site. Deviations are noted in the final column and the Clearinghouse has provided email confirmations from the counties documenting these deviations.

6. Allocation Methodology Certification

ERRO has used the allocation methodology Sec. 1-84.5 to develop the adjusted total proportional responsibility for each manufacturer registered in 2023. To do so, the ERRO Administrator used collection data from all reports from 2019-2021 as well as initial data from the first quarter 2022 as reported by the group plans. The final return share by category used in proportional responsibility calculations is shown below.

IL CERA CED Category	Return Share Percentage 2023
Computers and Small-scale servers	8.00%
Computer Monitors	6.00%
TVs	52.00%
Print/Fax/Scanners	15.00%
DVD /VCR	11.00%
Game consoles	1.00%
Cable/sat equipment	2.50%
Keyboards/Mice/DMPs	4.50%

After setting the return share by category, the ERRO compiled data from IEPA-provided manufacturer registration forms to set market share percentages by weight for each category. The adjusted total proportional responsibility was the product of the manufacturer’s product category sales weight percentage and the corresponding 2023 return share percentage.

Example:

Manufacturer A – 5% sales by weight in TVs, 10% sales in Monitors

5% TVs * 52% = 2.6%

10% Monitors * 6.0% = 0.6%

Manufacturer A Responsibility: 2.6% + 0.6% = **3.2%**

After setting the manufacturer responsibility percentages, the ERRO Administrator requested that group plans provide preferences on existing county/municipal sites as well as data on retail and other private collection efforts. Using data from the Opt-In Forms and 2019-2021 data, the ERRO Administrator developed a county by county (or municipality) estimate of pounds to be collected in 2023 and matched the group plans to the counties by relative estimated volume. As described in the attached Rules document [Exhibit A], manufacturers and their groups are able to offset the number of counties/municipalities assigned to by reporting retailer, curbside and other qualified private collection efforts. As in previous years, this calculation also included reductions and additions to pounds estimated based on the true-up process described in Exhibit A. Any sites used for meeting county minimums are not included in the private programs.

7. List of Manufacturers Intending to Comply through Clearinghouse

The following list of 88 manufacturers have registered for 2023 with Illinois EPA, signed Manufacturer Participation Agreements with the ERRO and joined a Group Plan to comply with CERA through the ERRO Clearinghouse.

1. 3M
2. Acer
3. Amazon
4. American Future Tech dba iBuypower

83. Voxx international Corp.
84. Vtech Electronics North America LLC
85. Wacom Technology Corporation
86. Wal-Mart Inc.
87. Xerox Corporation
88. Zebra Technologies

Two manufacturers registered with Illinois EPA for 2023, but reported zero sales of covered devices and therefore has no obligations through the Clearinghouse:

1. Elo Touch
2. Kyocera

Three manufacturers registered with Illinois EPA, but have not completed the necessary steps to fully join the Clearinghouse (submit form, sign ERRO agreement or join a group plan):

1. 3Pi Tech Solutions
2. Corsair (submitted fee, not manufacturer form)
3. Sharp Electronics

Hello-

BUREAU County will plan 2 (two) events:

- April, 2023 9:00am until 12:00 Noon
- October, 2023 9:00am until 12:00 Noon

Other Items:

- Bureau County will not be collecting outside of State of IL program materials.
- Bureau County will provide their own fork lift and labor (volunteers)
- For each event, the County will need 1 (one) semi-truck

Please inform if more information is required.
Thanks so much for this reminder.

Subject: RE: Illinois Electronics Recycling Program 2023- MRM

Hi Patrick:

Sorry for the delay. I have been off work with some back issues and also getting ready for an event here in the City over the weekend.

Yes, I am sure the 19th ward will want the one-day event each year, so can we add that? Otherwise, everything else will be coming back to the HCCRF (permanent facility).

At this time, we are not aware of any other one-day events. Please let me know if you need anything further. Thanks,
Terry

Subject: FW: Illinois Electronics Recycling Program 2023- MRM

Hi Terry,

Thank you for submitting a 2023 Opt-In form for the Illinois e-waste recycling program under the Consumer Electronics Recycling Act (CERA). You recently received an email from Jason Linnell at the Illinois Manufacturer Clearinghouse identifying MRM as the Group Plan assigned to your county for 2023.

The Clearinghouse has requested that the Group Plan submit to the Clearinghouse by June 29th the list of collection sites and events which have been agreed upon for 2023 by both MRM and the County.

MRM agrees to the collection opportunities you have listed on your opt-in form. If you have any changes, please let us know below. If applicable, the Clearinghouse has indicated that while its preferable to have collection event details, its only necessary to have the number of events and the town the event will be held in for 2023.

Same as last year, if the County/City and MRM agree to a number of collection opportunities less than the number allocated under CERA, the Group Plan will need something in writing from the County (email if acceptable) stating that this is acceptable. Because you are doing 1 site you will need to include a written response in this email stating that one site is acceptable.

Thanks!

Subject: Cook County 2023 eWaste Plan?

Hi Deborah,

Cook County has been assigned to RLGA for 2023. I have reviewed your 2023 opt-in form, and our next step is to just confirm that no changes have been made since that was submitted. Can you please confirm the below statement is accurate or update as needed?

Please confirm (Y/N): Cook County will be opted-in to the 2023 group plan and will be operating 2 (two) collection events at Elmwood Park and Village of South Holland.

Event site 1: (Elmwood Park) 7330 Fullerton Avenue, Elmwood Park, IL 60707

Event site 2: Village of South Holland; 16229 Wausau Ave, South Holland, IL 60473

- **Do the townships have any approximate dates and locations in mind at this time?**
- **Do the townships have a volume estimate for each event?**
-

In terms of logistics/recyclers/etc, we do not anticipate any major changes to your current operations and hope to continue business as usual. In the past, Cook County did not act directly as the collector; arrangements are made between the recycler and the community planning the event, so Cook County is not responsible for any fees incurred. Please advise if any changes are occurring on your end that would affect our volume forecasting or logistics planning.

Subject: DuPage County 2023 e-waste plan?

Hi Joy,

I am covering for Naomi while she is on maternity.

I hope your summer is going well. DuPage County has been assigned to RLGA for our 2023 e-waste group plan, so we are starting the process of preparing for next year. We know that you have a great arrangement going with eWorks and we plan to continue business as usual.

I have reviewed your 2023 opt-in form, and I need to just confirm that no changes have been made since that was submitted. Can you please confirm the below statement is accurate?

Please confirm (Y/N): DuPage County will be opted-in to the 2023 group plan and will be operating 4 (four) permanent sites:

1. Burr Ridge DPW, 451 Commerce St, Burr Ridge, IL, 60527 (Mon-Fri 7AM-3PM) **Y**
2. Naperville DPW, 156 Fort Hill Dr, Naperville, IL 60540 (Mon-Fri 7AM-3PM) **Y**
3. Wheaton Public Works Storage Lot, 820 W. Liberty Drive, Wheaton, IL, 60187 (Monthly on 2nd Sat 9AM-12PM) **Y**
4. eWorks ESI, 1201 Estes, Elk Grove, IL, 60007 (Mon – Fri) **Y**

AND 8 (Eight) Collection Events Sites, totaling 18 (eighteen) events:

1. (Village of Glendale Heights) 240 Civic Center Plaza, Glendale Heights, IL. Scheduled for Fall. One day event. Equals one event **Y**
2. (Village of Bensenville) 717 E. Jefferson St, Bensenville, IL 60106. Scheduled for June. One day event. Equals one event **TBD**

Mr. Hennen,

We agree to opt-in for a 2023 event. We may run it differently than we have in past years and work with Wayne County in returning the amounts collected. We were very frustrated with our amount for this year. Our volume was extremely low this year. We don't know if our small county has been saturated or if it was an off year. We plan on doing in conjunction with our City-wide cleanup (date yet to be determined).

Subject: Hamilton County 2023 eWaste Plan?

Hi Jeff,

I am covering for Naomi while she is on Naomi

I hope your summer is going well. Hamilton County has been assigned to RLGA for our 2023 e-waste group plan, so we are starting the process of preparing for next year. I have reviewed your 2023 opt-in form, and I need to just confirm that no changes have been made since that was submitted. Can you please confirm the below statement is accurate?

Please confirm (Y/N): Hamilton County will be opted-in to the 2023 group plan and will be operating 1 (one) collection event at 1610 South Jackson St, McLeansboro, IL 62859?

In terms of logistics/recyclers/etc, we do not anticipate any major changes to your current operations and hope to continue business as usual. Please advise if any changes are occurring on your end that would affect our volume forecasting, and if there is a specific event date in mind?

Subject: [EXTERNAL] FW: Illinois Electronics Recycling Program 2023- MRM

Hi Kelli,

Thank you for submitting a 2023 Opt-In form for the Illinois e-waste recycling program under the Consumer Electronics Recycling Act (CERA). You recently received an email from Jason Linnell at the Illinois Manufacturer Clearinghouse identifying MRM as the Group Plan assigned to your county for 2023.

The Clearinghouse has requested that the Group Plan submit to the Clearinghouse by June 26th the list of collection sites and events which have been agreed upon for 2023 by both MRM and the County.

MRM agrees to the collection opportunities you have listed on your opt-in form. If you have any changes, please let us know below. If applicable, the Clearinghouse has indicated that while its preferable to have collection event details, its only necessary to have the number of events and the town the event will be held in for 2023.

Same as the past several years, if the County and MRM agree to a number of collection opportunities less than the number allocated under CERA, the Group Plan will need something in writing from the County (email if acceptable) stating that this is acceptable. Because you are doing 1 site and 4 events, you will need to include a written response in this email stating that the events are acceptable.
