Re: 2025 Illinois EPA Electronic Waste Program Plan Review

Dear Mr. Linnell,

This letter is to inform you that the Illinois EPA has received the manufacturer e-waste program plan for program year 2024 ("the program plan") submitted on behalf of the Electronics Recycling Representative Organization ("ERRO") Clearinghouse in accordance with the Illinois Consumer Electronics Recycling Act ("CERA"). Section 1-25 of CERA establishes the required elements of the program plan and states, in relevant part, that the plan shall include, at a minimum:

- The contact information for the information for the individual who will serve as the point of contact for the manufacturer e-waste program ("the program");
- The identity of each county that has elected to participate in the program during the program year;
- For each county, the location of each program collection site and one-day collection event included in the program for the program year;
- The collector operating each program collection site and one-day collection event included in the program for the program year;
- The recyclers the manufacturers plan to use during the program year;
- An explanation of any deviation by the program from the standard program collection site distribution set forth in Section 1-15(a) of CERA; and
- A certification that the methodology used for allocation responsibility for the transportation and recycling of residential consumer electronic devices by manufacturers participating in the clearinghouse program year will be in compliance with Section 1-84.5 of CERA.

The Illinois EPA has reviewed the submitted program plan and determined that it contains these required elements. Consequently, the program plan is complete. The program plan also included other information, including, a document identified as ERRO Illinois Manufacturer Clearinghouse Program Rules. That document and other items not specifically identified above were not within the scope of the Illinois EPA's review and, accordingly, were not considered part of the submission for the purposes of approving or denying the program plan.

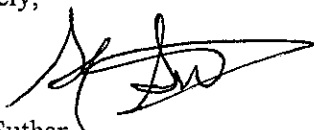

Section 1-25(b) of CERA requires the Illinois EPA to review the program plan and determine whether the collection sites and one-day collection events specified in the program plan satisfy the convenience standard set forth in Section 1-15 of CERA. The Illinois EPA reviewed the program plan and determined that it does satisfy the convenience standard set forth in Section 1-15 of CERA. Consequently, the program plan is **approved**.

2125 S. First Street, Champaign, IL 61820 (217) 278-5800
115 S. LaSalle Street, Suite 2203, Chicago, IL 60603
1101 Eastport Plaza Dr., Suite 100, Collinsville, IL 62234 (618) 346-5120
9511 Harrison Street, Des Plaines, IL 60016 (847) 294-4000

595 S. State Street, Elgin, IL 60123 (847) 608-3131
2309 W. Main Street, Suite 116, Marion, IL 62959 (618) 993-7200
412 SW Washington Street, Suite D, Peoria, IL 61602 (309) 671-3022
4302 N. Main Street, Rockford, IL 61103 (815) 987-7760

Please contact the Illinois EPA Electronic Waste Coordinator, Archana Uppuluri, at 217-524-3300 or Archana.Uppuluri@illinois.gov if you have any questions.

Sincerely,

E-Waste Program Plan for 2025

July 1, 2024

Program Plan Contents

1. Point of Contact Information
2. Identity of Opt-In County
3. Locations of Each Site/Event in Each Opt-In County
4. Recyclers to Be Used
5. Deviation from the Standard Program Collection Site Distribution
6. Allocation Methodology Certification
7. List of Manufacturers Intending to Comply through Clearinghouse
8. Exhibit A: 2025 ERRO Illinois Manufacturer Clearinghouse Program Rules
9. Exhibit B: 2025 Clearinghouse Collection Sites/Events and Recyclers
10. Exhibit C: Email Confirmations of Deviations from Standard Program Collection Site Distribution

1. Point of Contact Information

The point of contact for the Electronics Recycling Representative Organization (“ERRO”) Manufacturer Clearinghouse is:

Jason Linnell
Executive Director
National Center for Electronics Recycling
161 Studio Lane
Vienna, WV 26105
Cell: 304-374-8144
jlinnell@electronicsrecycling.org

2. Identity of Opt-In Counties

Illinois EPA distributed a form in early 2024 to eligible Illinois counties and municipalities to opt-in to the manufacturer program under CERA for 2025. As a result of this process, 50 units of government elected to participate in the program. Below is a listing of the counties and other units of government who filed opt-in forms. The ERRO Manufacturer Clearinghouse continued operation and development of a plan for 2025, using the Rules (Exhibit A) for how manufacturers would divide the responsibility for providing programs to those opt-in counties. Manufacturers had the option to participate through a “group plan” if their obligation percentage was over 3%. All manufacturers decided to fulfill their recycling responsibilities through one of six group plans, with the exception of two retailer-manufacturers. ERRO assigned registered group plans to each county/municipality as noted below. Plans submitted collection sites or events to cover the minimum required under CERA or made other arrangements with the County/municipality. The attached Exhibit B notes which sites/events were selected that either meets/exceeds the minimum number required or notes deviations with County agreements.

3. Locations of Each Site/Event in Each Opt-In County

The ERRO Administrator has assigned each of the above counties and municipalities to one of five registered group plans working directly with a recycler or recyclers, or who are recyclers themselves. The ERRO Administrator attempted to honor existing relationships and preferences in the assignments – including those noted on the County opt-in forms - while balancing each collective group’s obligation percentage described in Section 6 below. In most cases, the group plan assigned for 2025 is the same as 2024. However, due to changes in the individual manufacturer obligation percentages and manufacturer selection changes from 2024, this was not possible in all cases. The list of each collection site/event for each opt-in county is included in the attached Exhibit B. For several counties, the actual date and location of collection events has yet to be determined, but the city and number of events agreed to by its assigned group plan/manufacturer is noted wherever possible.

4. Recyclers to Be Used

The list of recyclers to be used by all manufacturers and group plans in the Clearinghouse is included in Exhibit B along with the collection locations. In some cases, multiple recyclers are noted. In all cases, group plans and manufacturers under the Clearinghouse understand that recyclers must be registered and meet the requirements under CERA.

5. Deviation from the Standard Program Collection Site Distribution

Several counties proposed deviations from the collection site distribution requirements in their proposed list of sites/events. Many of these involve substituting collection events for permanent sites. Deviations are noted in the final column and the Clearinghouse has provided email confirmations from the counties documenting these deviations.

6. Allocation Methodology Certification

ERRO has used the allocation methodology Sec. 1-84.5 to develop the adjusted total proportional responsibility for each manufacturer registered in 2024. To do so, the ERRO Administrator used collection data from all reports from 2019-2022 as well as initial data from the first quarter 2023 as reported by the group plans. The final return share by category used in proportional responsibility calculations is shown below.

IL CERA CED Category	Return Share Percentage 2025
Computers and Small-scale servers	7.50%
Computer Monitors	6.50%
TVs	51%
Print/Fax/Scanners	14.50%
DVD /VCR	11.50%
Game consoles	1%
Cable/sat equipment	2.50%
Keyboards/Mice/DMPs	5.50%

After setting the return share by category, the ERRO compiled data from IEPA-provided manufacturer registration forms to set market share percentages by weight for each category. The adjusted total

proportional responsibility was the product of the manufacturer's product category sales weight percentage and the corresponding 2025 return share percentage.

Example:

Manufacturer A – 5% sales by weight in TVs, 10% sales in Monitors

5% TVs * 51% = 2.55%

10% Monitors * 6.5% = 0.65%

Manufacturer A Responsibility: 2.55% + 0.65% = **3.2%**

After setting the manufacturer responsibility percentages, the ERRO Administrator requested that group plans provide preferences on existing county/municipal sites as well as data on retail and other private collection efforts. Using data from the Opt-In Forms and 2019-2022 data, the ERRO Administrator developed a county by county (or municipality) estimate of pounds to be collected in 2025 and matched the group plans to the counties by relative estimated volume. As described in the attached Rules document [Exhibit A], manufacturers and their groups are able to offset the number of counties/municipalities assigned to by reporting retailer, curbside and other qualified private collection efforts. As in previous years, this calculation also included reductions and additions to pounds estimated based on the true-up process described in Exhibit A. Any sites used for meeting county minimums are not included in the private programs.

7. List of Manufacturers Intending to Comply through Clearinghouse

The following list of 88 manufacturers have registered for 2025 with Illinois EPA, signed Manufacturer Participation Agreements with the ERRO and joined a Group Plan to comply with CERA through the ERRO Clearinghouse.

1. 3PI Tech Solutions
2. Acer
3. Amazon
4. American Future Tech dba iBuypower
5. Anker Innovations Limited
6. Apple, Inc.
7. Asus Computer
8. Atyme Corporation Inc
9. BenQ
10. Best Buy
11. Better WorkSpaces
12. Brainstorm
13. Brother
14. Canon U.S.A., Inc.
15. Corsair
16. CTL, Inc.
17. Curtis International
18. Cyberpower
19. Dell Inc.
20. Digital Products International, Inc

21. DirecTV
22. Doxie
23. DP Audio/Video
24. Element TV
25. Elitelux Technologies, Inc.
26. Envision Peripherals
27. Epson America, Inc.
28. Funai Corporation, Inc.
29. Google LLC
30. Hisense USA Corp
31. HMD America
32. HP Inc.
33. Hyundai Technology Group, Inc.
34. IPSG/Micro Center/Micro Electronics Inc.
35. Ingram Micro
36. JVCKenwood USA
37. Kensington Computer Products Group
38. Kodak Alaris
39. Konica Minolta Business Solutions
40. Lenovo (United States) Inc.
41. Lexmark
42. LG Electronics USA Inc
43. Lippert Components Inc
44. Logitech
45. Meta
46. Microsoft Corporation
47. MSI Computer Corp
48. Naxa Electronics Inc.
49. Netgear
50. Nintendo of America
51. Nook Digital
52. NVIDIA
53. Orei
54. Panasonic
55. Peerless Industries
56. Planar Systems, Inc.
57. Plustek
58. Premio
59. Razer
60. Ricoh
61. Roku
62. Samsung
63. Sceptre, Inc
64. Seura, Inc.

65. Sharp Electronics
66. SiriusXM Radio, Inc
67. Skyworth
68. Sony Electronics Inc
69. SOUND AROUND Inc.
70. Staples
71. Stratasys
72. SteelSeries APS
73. Summer Infant/SUMR
74. Sunbrite TV
75. Targus
76. TCT Mobile
77. Tonies
78. TTE Technology, Inc. dba TCL North America
79. Valve Corporation
80. ViewSonic
81. Visioneer, Inc.
82. VIZIO, Inc.
83. Vtech Electronics North America LLC
84. Wacom Technology Corporation
85. Wal-Mart Inc.
86. Westinghouse
87. Xerox Corporation
88. Zebra Technologies

Two manufacturers registered with Illinois EPA for 2025, but reported zero sales of covered devices and therefore has no obligations through the Clearinghouse:

1. Dynabook
2. Kyocera

Two manufacturers registered with Illinois EPA but did not complete the necessary steps to join the ERRO Manufacturer Clearinghouse:

- C&A
- Shenzhen Unichain

In lieu of the minimums required, the City of Chicago in Illinois requests that we receive the following collection coverage plans for the Illinois CERA Program for 2025. We will be conducting 116 collection events at our permanent facility located at 1150 N. North Branch St., Chicago, IL 60642. We will also be conducting 54 satellite collection events throughout the year at 6 neighborhood locations for a total of 170 collection events. Those 6 satellite locations are:

6441 N. Ravenswood Ave., Chicago, IL 60626

4808 W. Wilson Ave., Chicago, IL 60630

1817 S. Pulaski Rd., Chicago, IL 60623

8559 S. Vincennes Ave., Chicago IL 60620

2300 W. 52nd St., Chicago, IL 60609

900 E. 103rd St., Chicago, IL 60628

We understand that this request may deviate from the minimum convenience requirements under CERA and with this request acknowledge those deviations and recognize the collection sites listed above as our requested coverage 2025.

The information that you have is correct.

On Wed, Jun 26, 2024 at 10:14 AM Naomi Manahan <Naomi.Manahan@rev-log.com> wrote:

Hi Bob,

I am reaching out to you regarding your 2025 plans for electronics recycling in Crawford County. My organization, Reverse Logistics Group (RLG), has been assigned to Crawford County to provide your service under CERA. This includes providing packaging (shrink wrap, pallets, and gaylords) for your events, arranging a live load or drop trailer for your event, and covering the cost of transportation and recycling of the covered electronics collected.

It is Crawford County's responsibility to advertise the event, provide labor to collect, pack, and load the truck, and any items required for loading the truck (forklift, pallet jack, dock, etc).

We need to submit a plan to the IEPA regarding the anticipated number of events and sites in the counties RLG works with. We do not need to know the event date at this time unless you have it readily available. **Can you please confirm the below statement is correct?**

"Crawford County will hold 1 event in 2025 (date TBD) located at Ambraw Valley Solid Waste, 1630 S. Eaton St, Robinson, IL 62454. This event will meet Crawford County's collection needs."

Please give me a call if you have any questions – my number is 732-589-8622. To ensure all logistics & packaging is arranged in a timely manner, please give us 2 months notice once an event date has been finalized.

Best,

Naomi

Thank you for the great news!! (And for all your work on making this happen.) The only edit I have is that Collection site 4 is actually Lisle Township. While it is located in the Village of Lisle, it is operated by the Township.

I look forward to continuing to work with RLG and eWorks.

Subject: [EXTERNAL] electronic waste McHenry County CERA

Hi Kristy,

With Kelli being out, I was given your name to reach out to regarding electronic waste. I also left you a message so feel free to reach back out if you have questions.

MRM was assigned to support McHenry county in their e-waste support for 2025 (and we currently support in 2024). McHenry county opted into participate in the IL EPA e-waste program, and has for multiple years. Attached is the 2025 opt in form that Kelli submitted to participate in the 2025 program. This is the same information as past years.

IL EPA under the Consumer Electronic Recycling ACT (CERA) allocates a certain number of collection sites to counties based on population. McHenry uses both a collection site and collection events for e-waste. IL requires counties to confirm that using the collection events to meet the obligation submit a notice that the county is OK with using events, not just sites.

MRM is agreeing to support what Kelli submitted as the proposed collection site and location for 2025, same as 2024. Regardless, we still need email verification to send to the IL EPA.

Can you please confirm that you are OK with what was proposed in the McHenry County opt in form.

Thanks,

Patrick

Putnam County, Illinois requests that we receive the following collection coverage plans for the Illinois CERA Program for 2025. We will be conducting up to 1 collection events instead of the required one permanent site. We understand that this request may deviate from the minimum convenience requirements under CERA and with this request acknowledge those deviations and recognize the collection site coverage listed above as our requested coverage for 2025.

Good morning, Patrick,

Sorry for the delay in response to your email. Yesterday, I was finally able to get in touch with the chair of our solid waste committee. We had storms come through our area on the weekend of the 30th that did quite a bit of damage. Things have been a little chaotic in the county. To answer your question, we do have four events tentatively planned for the 2024 year. You said in your initial email that the MRM Letter of Understanding does not need to be signed. At this time, is there any documentation you are waiting on from us?

Sorry again for the delay,
Jamilyn

Subject: FW: Illinois Electronics Recycling Program Group Plan 2024 - MRM

Importance: High

Hello Jamilyn,

As you may be aware, under CERA, MRM was assigned to provide e-waste services to Washington County in 2024. We wanted to introduce ourselves and ask if you have any questions.

We are aware that you were assigned a different service provider in 2023.

From your opt in form, it looks like you have four events tentatively schedule for 2024. Can you please confirm? MRM will be responsible for transportation, packaging, and the recycling of covered electronics received at the events. The county will be responsible for the collection event.

Attached is a draft letter of understanding, we don't need to have this signed unless you would prefer to. Some counties want us to sign, others prefer not to sign. Regardless, the LOU is a document related to the role of MRM and the role of the county under CERA. If you are familiar with CERA the document will be fairly bland.

We will follow up with you closer to 2024 to ensure that events are scheduled and we have all the logistics.

Patrick

Subject: Illinois Electronics Recycling Program Group Plan 2024 - MRM
Importance: High

Dear Illinois Local Government Representative:

Thank you for submitting a 2024 Opt-In Form for the Illinois electronics recycling program under the Consumer Electronics Recycling Act (CERA). [The Electronics Recycling Representative Organization \(ERRO\)](#) is submitting an e-waste program through a manufacturer clearinghouse on behalf of all Illinois registered manufacturers for 2024. The National Center for Electronics Recycling (NCER) administers the Illinois Manufacturer Clearinghouse and plan submission for ERRO.

The Clearinghouse divides the responsibility for meeting the minimum collection requirements for Opt-In Counties among all registered manufacturers. The allocation of counties is based on the relative size of the manufacturers according to their market share and the relative share of their product types in the recycling stream. As in past years, all manufacturers have chosen to be assigned Opt-In Counties in groups administered by a Group Plan. For 2024, five Group Plans registered with the Clearinghouse on behalf of varying numbers of manufacturers. Group Plans are companies, such as recyclers or management companies, who have agreements with manufacturers to select and work with transporters and recyclers to carry out manufacturer obligations under CERA. In some cases the Group Plan is the same as the recycler, and in other cases the transporter and recycler are separate from the Group Plan administrator.

We are contacting you today to let you know which Group Plan your County/local government unit has been assigned for 2024. Below is the name of the Group Plan administrator and primary contact who will be in touch with you. The Group Plan contact will review the information provided on your Opt-In form and work on details of the collection sites and/or events that will be offered in 2024. **The Group Plan assigned to your County in 2024 is:**

MRM	Patrick Santelli Patrick.santelli@mrmrecycling.com
-----	--

We will need your assistance to work on those details with the Group Plan if possible **before June 29th**. The Group Plans have been asked to report their assigned Counties' details by that date so the Clearinghouse can submit the plan to Illinois EPA by July 1st. Sites and events can be altered in the future if your circumstances change.

Here are a few details to keep in mind when discussing 2024 collection sites/events:

- If your local government unit and the Group Plan agree to utilize collection events, or if the number of collection sites proposed is fewer than the number required under CERA, the Group Plan will need something in writing from you (email suffices) stating that this is acceptable. This even applies if your opt-in form requested only events or fewer than the minimum number of sites.
- All of the details on collection events, such as the exact location and date, do not need to be finalized at this point. However, the Group Plan contact will need to submit the number of events in the county as well as the city or cities in which they will take place in 2024.
- In some cases the Group Plan assigned to your County/local government unit will change from 2023 to 2024. The Clearinghouse attempted to minimize these changes and follow preferences submitted on Opt-In forms and from the Group Plans. However, some changes were needed to balance differences in manufacturer obligations from this year to next and changes in manufacturer group plan

selections. If there is a change, please work with the Group Plans on a transition plan after finalizing the 2024 collection sites/events details.

The ERRO Clearinghouse appreciates your participation in this program and looks forward to working with you to continue the successful electronics recycling programs in Illinois in 2024. Please contact us or your assigned Group Plan should you have any questions.

Thanks,

Jason Linnell
