4. Discussion of Materials to Target for Diversion Methodology. Pai led a discussion covering the Diversion Matrix and other information gathering efforts undertaken by ISTC and the Illinois EPA. As of the date of the meeting, 54 counties have responded to ISTC's asset survey. Those counties account for approximately 85% of the state population. Pai provided an overview of the proposed structure for categorizing the materials included in the matrix based on the necessary improvements to encouraged enhanced diversion. These categories covered: (1) materials with existing infrastructure and markets; (2) materials with markets that needed infrastructure expansion; (3) materials that have limited infrastructure, but need expanded markets; and (4) emerging materials that have neither infrastructure or markets. Group discussion on illustrative examples that fit each category and additional presentation options. Pai discussed options for gap analysis to address the divergence between current recovery rates and targeted recovery improvements. Group discussion of additional necessary definitions and options for crafting statewide diversion targets. Pai requested that the group review the matrix and provide comments in advance of the February meeting.
