

Great Lakes to Gulf Virtual Observatory

- A Place to Deposit, Organize, and Integrate NLRs Data and Information

Supercomputing Applications

What is the Great Lakes to Gulf Virtual Observatory?

- The GLTG Virtual Observatory is a web-based geospatial application that integrates water quality data and analytical tools from multiple sources allowing a user to visualize and understand nutrient pollution and water quality conditions in the Mississippi River watershed.
- The online interactive application provides users with tools to explore, analyze and compare water quality data from the Mississippi River and its tributaries.

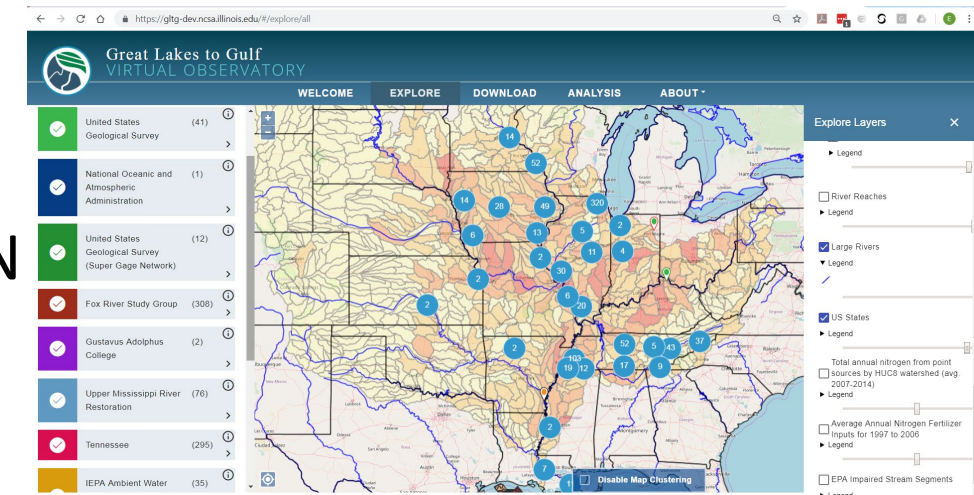

The National Great Rivers Research & Education Center

Data in GLTG

- GLTG Main Site
 - 1427 sites
 - 30,536,674 individual measurements (on current and growing)
 - 27,650,502 individual measurements (on 2/11/2019)
 - 26,418,123 individual measurements (on 9/10/2018)
 - 13 Data sources
 - 13 States
 - Illinois, Wisconsin, Minnesota, Arkansas, Kentucky, Nebraska, Kansas, Missouri, Louisiana, Mississippi, Iowa, Tennessee, Indiana
- IL NRLS Site
 - 393 sites from 9 sources and 12,228,339 datapoints (on current)

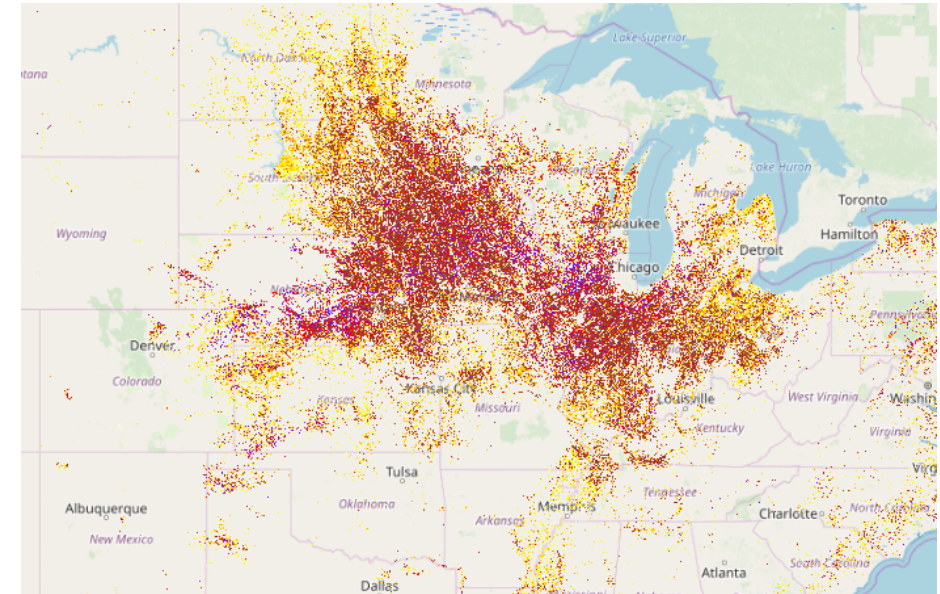

Selected Data Sources

- US Geological Survey – NWIS
 - ‘Supergages’, ambient monitoring
- US Environmental Protection Agency –
 - STORET/WQX
- UMRR LTRM – Upper Mississippi River Restoration Long Term Resource Monitoring Program
- NGRREC – GREON (Great Rivers Ecological Observatory Network)
- Metropolitan Council, Minneapolis/St. Paul, MN
- Fox River (Illinois) Study Group
 - Latest data 3/28/2019
- Iowa Water Quality Information System / University of Iowa

Geospatial Contextual Layers

- SPARROW 2002 Model
- Hypoxia Extent from 2005 to 2017
- USDA CropScape Frequency layer
- NOAA Precipitation layer
- State EPA impaired waters layer
- Layers related to nutrient analysis for Illinois
 - Catchment
 - Point sources
 - Unmonitored area
 - Nutrient loading by HUC 8

ILLINOIS NCSA

Illinois NLRs Data Portal

Development of IL NLRs Data Portal

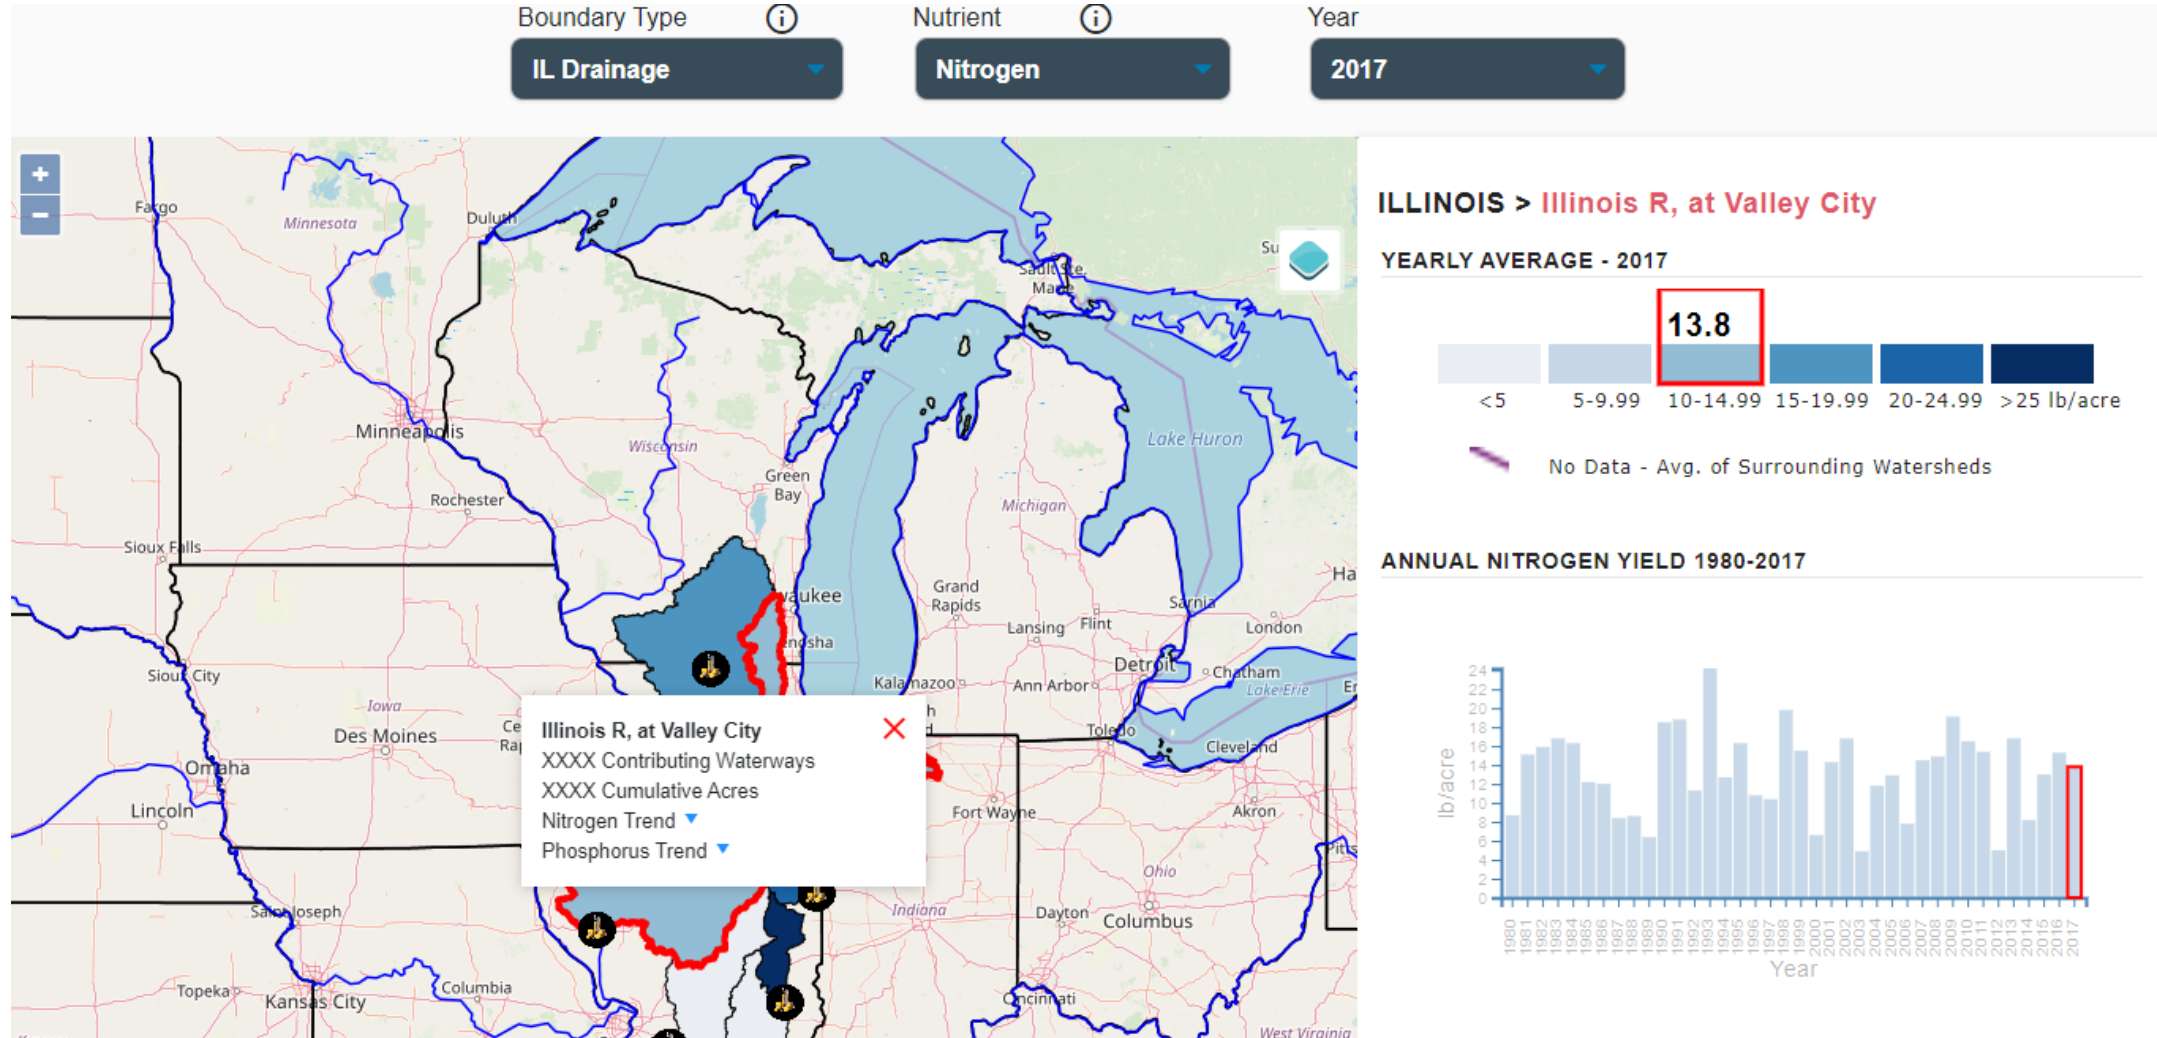

- Base on GLTG application and data, IL NLRs data portal has been developed working with IL EPA
- Initial data is from GLTG
- New version of IL NLRs has been deployed

What's New?

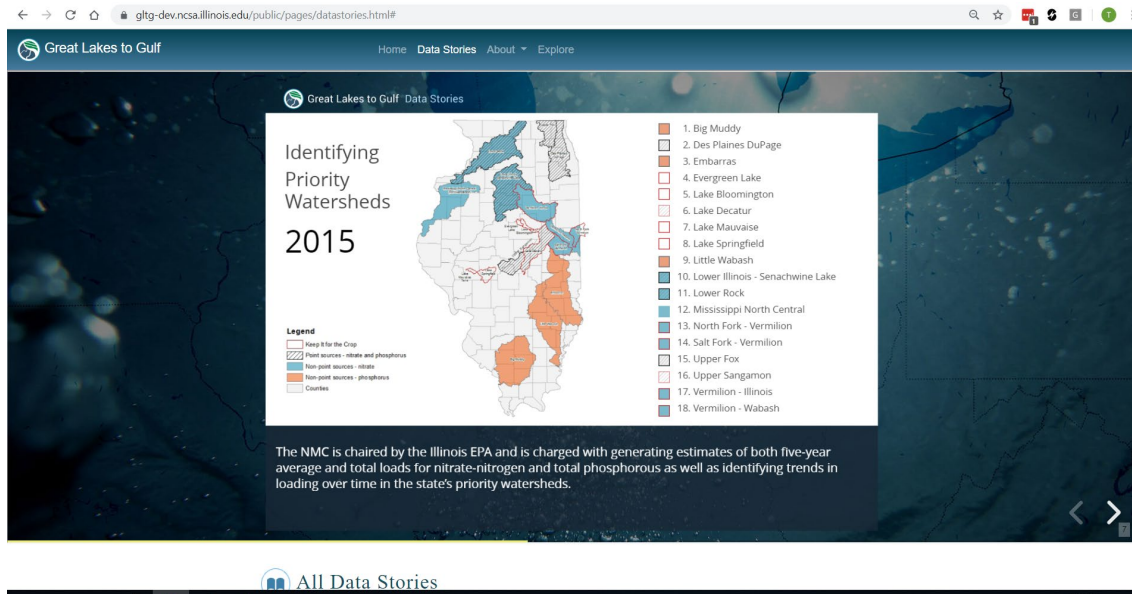

- Geostreaming Data Framework V3
- Developed through combining efforts of 4 projects
 - GLTG, Seagrant Great Lakes Monitoring, IML-CZO, TERRA-REF
- New Frontend (User Interface)
 - Complete rewrite using latest technologies
 - Improvements to user interface/interaction
- New Backend (Performance)
 - New binning methodology and database improvement
- Signup/Login for users
 - Track downloads
- Dashboard for IL NLRs data
- Story board

Dashboard

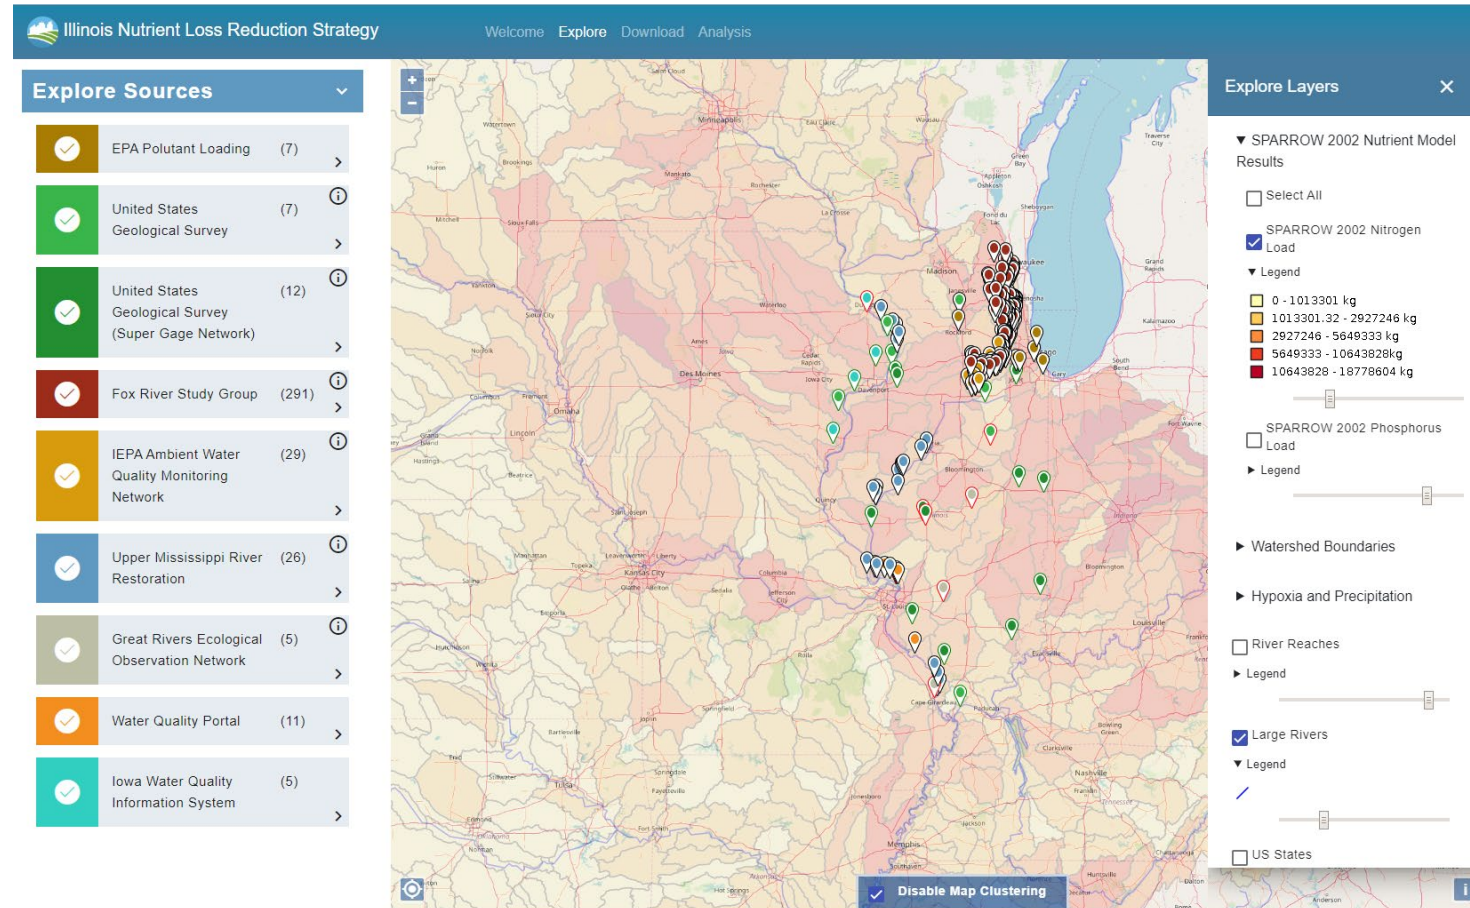

Narrative / Storyboard

- Work with users / stakeholders to develop relevant stories
 - Easy to digest graphs, charts, summaries

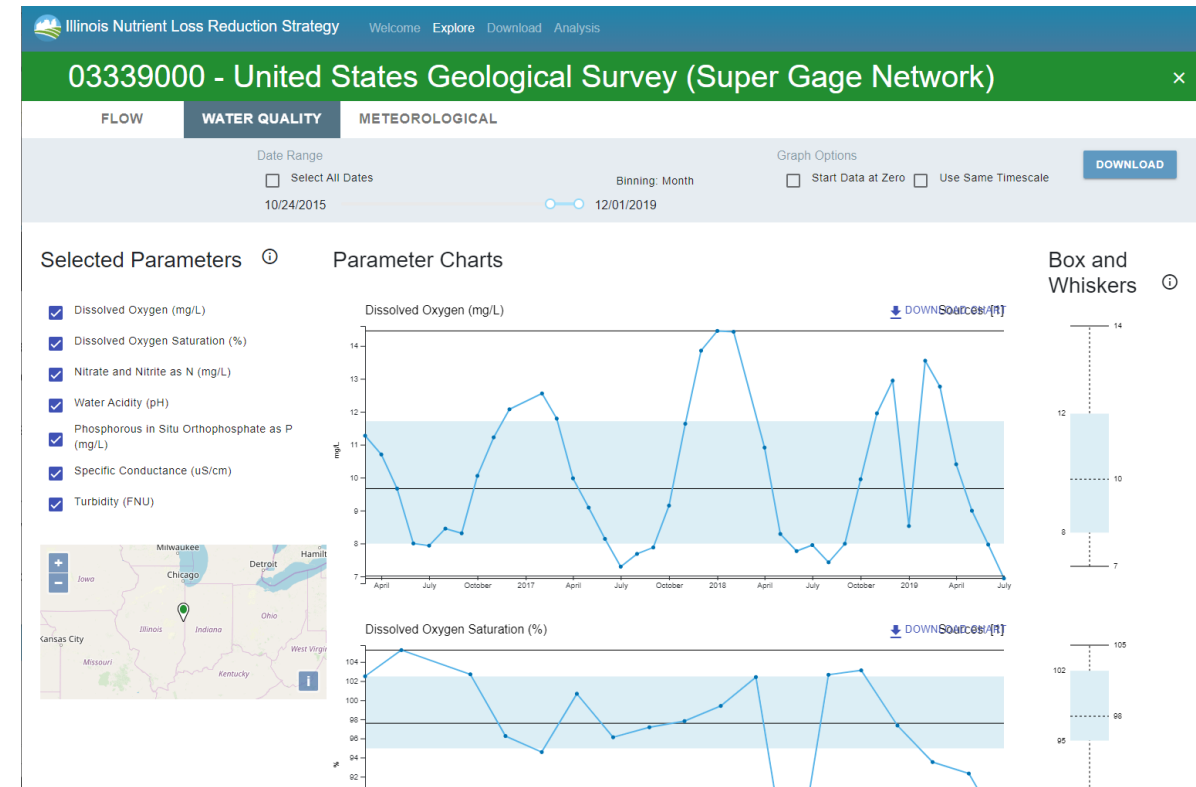

Explore Page

- New User Interface design
 - Separate panes for data sources and Geospatial layers
- Map clustering option
- Turn on/off data sources

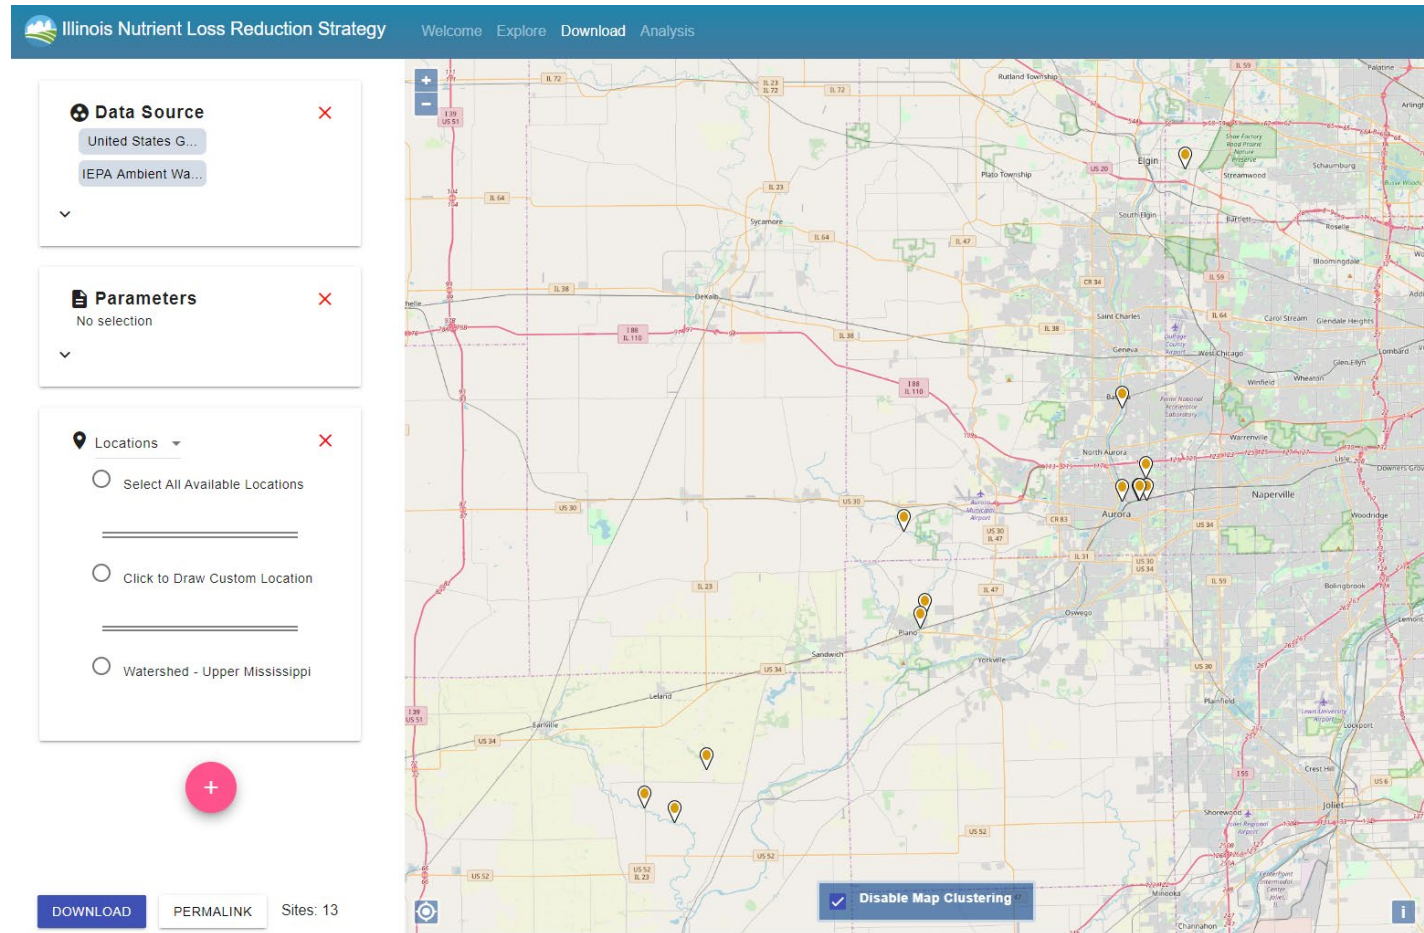

Detail Page

- New and improved User Interface design
- Performance improvement for smart binning
- Categories for parameters
- Charts
 - Box plots shows on the charts; highlight outliers
- Graph options
 - Start data at Zero
 - Use same time scale
 - It will sync all charts with same time range/scale
- Date Range
 - Select all dates: option to show all dates quickly

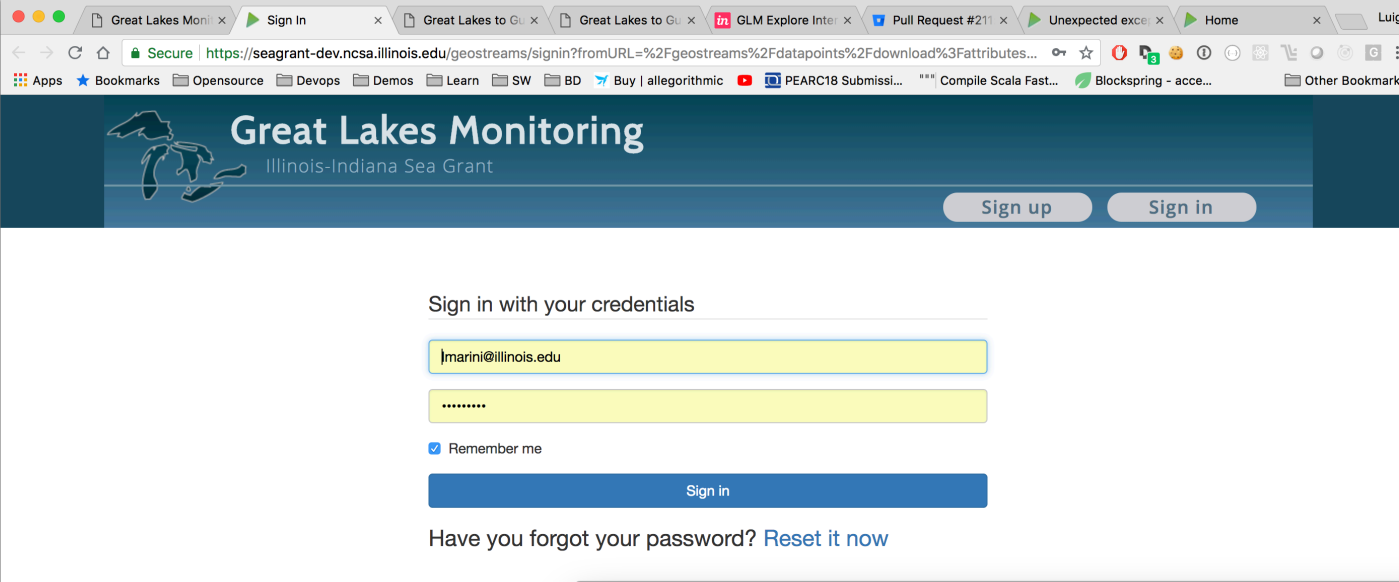

Download Page

- Easy search and on-the-fly update on search
- Main search criteria
 - Data Source
 - Parameter
 - Location
 - Time
 - Online

V3 - User Login / Track Downloads (In Progress)

A screenshot of a web browser showing the 'Sign In' page for the Great Lakes Monitoring application. The browser's address bar shows the URL: `https://seagrant-dev.ncsa.illinois.edu/geostreams/signin?fromURL=%2Fgeostreams%2Fdatapoints%2Fdownload%3Fattributes...`. The page header features the 'Great Lakes Monitoring' logo and the text 'Illinois-Indiana Sea Grant'. Below the header, there are 'Sign up' and 'Sign in' buttons. The main content area is titled 'Sign in with your credentials' and contains a form with two input fields: one for the email address (containing 'lmarini@illinois.edu') and one for the password (masked with dots). Below the password field is a checked checkbox labeled 'Remember me'. A blue 'Sign in' button is positioned below the form. At the bottom of the form, there is a link that says 'Have you forgot your password? [Reset it now](#)'.

Collaboration with IL - NLRS

- Collaborating with Illinois Nutrient Loss Reduction Strategy (by IEPA)
- Geospatial data support for analyses on N/P changes over time with Prof. Greg McIsaac
 - Catchment analysis of monitoring stations (# stations)
 - Identifying point sources related to certain monitoring stations
 - Identifying unmonitored area in Illinois (with point sources)
 - Generating/visualizing the N/P loads by HUC 8
 - Those geospatial layers will be GLTG contextual layers
