

Nutrient Science Advisory Committee

Tentative Conclusions and Next Steps

January 8, 2018

Conference Call

TENTATIVE CONCLUSIONS

1. NSAC is adding a recent Ohio paper (Miltner) to their literature review.
2. Brian and Doug distributed their literature review assignment results. Doug presented his spreadsheet analysis of chlorophyll-a data.

NEXT STEPS

- Doug will review the Ohio paper (Miltner).
- Candice will pull the TP and TN subset of chlorophyll-a that Doug analyzed.
- Chris and Candice will complete literature review assignment.

DUE DATE for the above is January 16.

Next Meeting: Face to face meeting Jan 22
