

Nutrient Science Advisory Committee

Tentative Conclusions and Next Steps

January 29-30, 2018
Urbana

TENTATIVE CONCLUSIONS

The committee continued to work through data and criteria options using the sensitivity/specificity Excel spreadsheet. No tentative conclusions were decided.

NEXT STEPS

- Add the US EPA Wadeable Streams Assessment data to the lines-of-evidence table.
- Request Tetra Tech make additional analysis.
- Review narrative standard towards a combined criterion.

Future meetings and calls

- Skype Call: February 14th at 10:00-11:30 am central time
- Face to Face: February 27, 9 am central time in Urbana.
