I. Introduction

MED-Project IL, LLC (“MED-Project”) submits this proposed Product Stewardship Plan for Unwanted Medicine from Households in accordance with the Illinois Drug Take-Back Act (410 ILCS 720) on behalf of the participating Covered Manufacturers.

II. Definitions

410 ILCS 720/10. Definitions.

Capitalized terminology in the Plan has the meaning in these definitions. Capitalized terminology that is not defined in the Plan is defined in the Illinois Drug Take-Back Act (410 Illinois Compiled Statutes (ILCS) 720).

Agency means the Illinois Environmental Protection Agency.

Call Center is the multilingual call center operated by MED-Project for residents, which callers can reach at a toll-free telephone number.

Carrier is a common or contract carrier used to transport Unwanted Medicine.

Collection Event means a one-day event conducted by MED-Project with oversight by law enforcement at a location accessible to the public for the collection of Unwanted Medicine from Consumers.

Consumer means a person who possesses a covered drug for personal use or for the use of a member of the person's household.

DEA is the U.S. Drug Enforcement Administration.

DEA Rule is the DEA Final Rule, "Disposal of Controlled Substances," 79 Fed. Reg. 53,520 et seq., adopted on September 9, 2014.

DOT is the U.S. Department of Transportation.

Funding Grant is the awarding of funds to a Collection Site with an existing collection receptacle that meets the grant program criteria in Section III.A.4 of this Plan that chooses to continue managing disposal of collected Unwanted Medicine using LEA staff.

Grant-Funded Collection Receptacle means a collection receptacle meeting federal and state standards for which a Collection Site receives a Funding Grant from MED-Project.

Help Desk is the MED-Project Website, call center, and email-in database for Potential Authorized Collectors, MED-Project Collection Sites, and Mail-Back Distribution Locations.

Inhaler Mail-Back Package is a pre-paid, pre-addressed Mail-Back Package provided by Vendor for the collection and disposal of inhalers.

Injector Mail-Back Package is a pre-paid, pre-addressed Mail-Back-Package including a United States Food and Drug Administration-cleared sharps container mail-back system provided by Vendor for the collection and disposal of Pre-filled Injector Products.

Law is the Illinois Drug Take-Back Act (410 ILCS 720), effective June 10, 2022.

LEA is a law enforcement agency.

Mail-Back Distribution Location means a public facility, such as a town hall or library, that offers Mail-Back Packages to Consumers.

Mail-Back Package is a pre-paid, pre-addressed mail-back container, envelope, package, or system provided by Vendor for the collection and disposal of Unwanted Medicine.

MED-Project Collection Receptacle means a collection receptacle for Unwanted Medicine from Consumers located at an Authorized Collector meeting federal and state standards and approved by MED-Project for participation in the Program. A MED-Project Collection Receptacle will be either provided by MED-Project or an existing collection receptacle that can be serviced by MED-Project's Vendor and has signage that is updated as appropriate.

MED-Project Collection Site means a Collection Site hosting a MED-Project Collection Receptacle or a Grant-Funded Collection Receptacle for the collection of Unwanted Medicine from Consumers for which a Pharmacy, LEA, or other Authorized Collector has executed an agreement with MED-Project.

On-Demand Collection Service is a service method whereby Authorized Collector employees manage the removal and packaging of full MED-Project Collection Receptacle inner liners provided by Vendor for Carrier pick-up.

Pre-filled Injector Products are pre-filled injector products with a retractable or otherwise securely covered needle from which Covered Drugs cannot be removed.

Program or **MED-Project Program** is the MED-Project product stewardship program set forth in this Plan.

Plan or **MED-Project Plan** is the product stewardship plan presented in this submittal by MED-Project.

Scheduled Collection Service is a service method whereby MED-Project provides for a Service Technician to help prepare MED-Project Collection Receptacle inner liners provided by Vendor for Carrier pick-up.

Service Technicians are personnel, provided by Vendor, trained to help prepare inner liners for shipment and disposal under the supervision of the MED-Project Collection Site.

Standard Mail-Back Package is a pre-paid, pre-addressed Mail-Back Package provided by Vendor for the collection and disposal of Unwanted Medicine, except for inhalers and Pre-filled Injector Products.

Unwanted Medicine is any Covered Drug that is unused, unwanted by the Consumer, or expired and that has been abandoned, discarded, or intended to be discarded by the Consumer.

Vendor is any vendor hired by MED-Project to provide goods and/or services under the Program.

Website is the website operated by MED-Project.

III. Program Requirements

410 ILCS 720/25. Drug take-back program requirements.

A. Opportunity to Participate

1. Notification of Opportunity to Participate

410 ILCS 720/25(a) At least 120 days prior to submitting a proposal under Section 35, a manufacturer program operator must notify potential authorized collectors of the opportunity to serve as an authorized collector for the proposed drug take-back program. No later than 30 days after a potential authorized collector expresses interest in participating in a proposed program, the manufacturer program operator must commence good faith negotiations with the potential authorized collector regarding the collector's participation in the program.

On February 24, 2023, as required by 410 ILCS 720/25(a), MED-Project contacted Potential Authorized Collectors in Illinois by email to notify them of the opportunity to serve as an Authorized Collector for the proposed MED-Project Program. MED-Project obtained contact information for DEA-registered pharmacies in Illinois from the National Council for Prescription Drug Programs (NCPDP). For non-pharmacy Potential Authorized Collectors (e.g., law enforcement agencies, local government agencies, etc.), where contact information was not as readily available, the Agency provided names and contact information for representative associations and umbrella organizations which could share the opportunity to participate email with their member organizations. MED-Project issued the opportunity to serve notification to the representative association and umbrella organization points of contact provided by Illinois EPA so that the notice could be shared with their membership. MED-Project has pre-existing relationships with retail chain Pharmacies identified in Appendix A. MED-Project will work with the retail chain Pharmacies to determine their desired collection receptacle placement across their operations and will count these Collection Sites when determining MED-Project's achievement of its portion of the convenient access goals.

Within 30 days of receiving a written expression of interest from a Potential Authorized Collector to participate in the Program without compensation, MED-Project will begin good-faith negotiations with the Potential Authorized Collector by initiating an eligibility review process.

While MED-Project will begin good-faith negotiations by initiating this process within 30 days as described above, it may take more than 30 days to complete the entire process. Where a Potential Authorized Collector has expressed interest in participating in the Program but does not complete the provided questionnaire or sign the written offer to participate, this Potential Authorized Collector will be considered no longer interested in participating in the Program and MED-Project will terminate the negotiation process after 90 days. In this case, the Potential Authorized Collector may re-express interest in participating in the Program again at any time and the process will be started again with

MED-Project conducting an updated eligibility assessment and providing a new copy of the questionnaire.

If a Potential Authorized Collector identifies objections to the MED-Project draft agreement, MED-Project will negotiate with that Authorized Collector to reach an agreement that will allow it to participate in the Program on terms consistent with all applicable laws.

Any representative with authority to make commitments on behalf of a Potential Authorized Collector can express interest in participating in the Program.

If MED-Project is the only Manufacturer Program Operator approved to operate a Drug Take-Back Program in Illinois, MED-Project will continue to carry out good-faith negotiations with all Potential Authorized Collectors that express written interest in participating in the Program. The Law states in 410 ILCS 720/35(a) that if the Agency receives more than one proposal for a Drug Take-Back Program, the Agency will review all proposals in conjunction with one another to ensure the proposals are coordinated to achieve the authorized Collection Site coverage set forth in 410 ILCS 720/25(j). If multiple Manufacturer Program Operators are approved, MED-Project will continue to carry out good-faith negotiations with Potential Authorized Collectors that express written interest in participating and coordinate with the Agency until MED-Project has accepted a portion of the total number of interested Authorized Collectors proportionate to the number of Manufacturer Program Operators approved. For example, if one other Manufacturer Program Operator is approved, MED-Project will work with the Agency to provide services to half of all Potential Authorized Collectors that express written interest in participating in MED-Project's Program. MED-Project will include any retail chain Pharmacy in the total number of Authorized Collectors to demonstrate that MED-Project has met the allocation between Manufacturer Program Operators.

If the Illinois Drug Take-Back Act is amended after Agency approval of this Plan, MED-Project will submit an amendment to modify the Plan.

2. Authorized Collector Participation

410 ILCS 720/25(b) A person may serve as an authorized collector for a drug take-back program voluntarily or in exchange for compensation. Nothing in this Act requires any person to serve as an authorized collector for a drug take-back program.

MED-Project will accept into the Program any eligible Authorized Collector that volunteers to participate in the Program without compensation, taking into account the multiple operator allocation of interested Potential Authorized Collectors discussed above in Section III.A.1. No Potential Authorized Collectors will be required to participate in the MED-Project Program.

3. Pharmacy Participation

410 ILCS 720/25(c) A pharmacy shall not be required to participate in a drug take-back program.

Pharmacies will not be required to participate in the MED-Project Program.

4. Inclusion of Potential Authorized Collectors

410 ILCS 720/25(d) A drug take-back program must include as a collector any person who (i) is a potential authorized collector and (ii) offers to participate in the program. The manufacturer program operator must include the person in the program as an authorized collector no later than 90 days after receiving a written offer to participate.

MED-Project will enter into agreements with its agreed-upon proportionate amount of eligible Potential Authorized Collectors, including a site as an Authorized Collector in the Program within 90 days of receiving the signed written offer to participate as described in Plan Section III.A.1. Once an agreement is executed, MED-Project will activate the Potential Authorized Collector as a MED-Project Collection Site and initiate coordinating with the Collection Site to provide the Program services.

Authorized Collectors which have executed an agreement with MED-Project prior to September 1, 2023, to serve as a MED-Project Collection Site, will have their site activated and their MED-Project Collection Receptacle installed by December 1, 2023, depending on site scheduling preferences. Authorized Collectors executing an agreement on or after September 1, 2023, will be activated and their MED-Project Collection Receptacle installed after December 1, 2023.

Where retail chain Pharmacies have already agreed to participate in the Program through an existing agreement, MED-Project will work with the retail chain Pharmacy sites to determine an implementation and installation timeline for their participation and activation.

MED-Project will terminate the process of including a Potential Authorized Collector in the Program if any of the following circumstances arise after the Potential Authorized Collector has signed the written offer to participate:

- It is determined that the Potential Authorized Collector is not or is no longer eligible to participate in the Program.
- It is determined that the signatory to the written offer to participate is not authorized to sign the document on behalf of the Potential Authorized Collector.
- It is determined that the Potential Authorized Collector cannot agree to the terms of the agreement with MED-Project.
- The Potential Authorized Collector decides that it is no longer interested in participating in the Program.

MED-Project will not enter into an agreement with any Potential Authorized Collector that is unable to comply with all applicable laws, regulations, other legal requirements, or any other MED-Project terms consistent with the scope of the approved Plan and the Law. Consistent with 410 ILCS 720/25(h), “Authorized Collectors must comply with all State and federal laws and regulations governing the collection, storage, and disposal of

covered drugs, including United States Drug Enforcement Administration regulations” to participate in the Program.

There is an extensive network of existing Authorized Collectors operating medication take-back Collection Sites in Illinois under existing funding programs. Some of these Collection Sites operate independently, while others are part of a local collection network run by a local government unit with law enforcement oversight/management. To leverage this existing infrastructure and to provide consistency where local collection network programs are already successfully operating, MED-Project will establish a funding grant program (“Grant Program”). The Grant Program will, among other things, support existing local collection networks in the collection, transport, and disposal of Unwanted Medicine through the awarding of funds to the Collection Site network coordinating organization with existing collection receptacles that choose to continue managing disposal of collected Unwanted Medicine using LEA staff.

When a written expression of interest is received from a Potential Authorized Collector with an existing collection receptacle, MED-Project will determine whether the Potential Authorized Collector is part of a local collection network that is eligible for the Grant Program. The Grant Program will be made available to any local collection network that meets all of the following criteria:

- Is operated by a governmental agency (e.g., County Sheriff’s Office);
- Includes at least 75 operating LEA Collection Sites;
- Operates according to policies and procedures which ensure compliance with all applicable federal, state, and local laws, regulations, and other legal requirements; and
- Operates with LEA oversight, where the LEA directly manages the disposal of the collected Covered Drugs.

Local collection networks meeting the eligibility criteria for the Grant Program will be invited to execute an agreement with MED-Project to receive an annual Funding Grant of \$1,000 per Collection Site per year to support Unwanted Medicine collection, transport, and disposal. Funding Grant funds will allow Collection Sites with an existing collection receptacle to retain their existing collection program and avoid disruptions to operations that may result from installing a new collection receptacle and switching to a new collection, transport, and disposal process.

In order to participate in the Grant Program, the coordinating organization responsible for the local collection network must execute a grant agreement with MED-Project and do all of the following:

- Complete all sections of the grant agreement, including providing a list of Collection Sites for which a Funding Grant is requested.
- Agree to the terms of the agreement, which include:

- Attestation that the Funding Grant will be used to manage Unwanted Medicine from Consumers in compliance with all applicable laws, rules, and regulations.
- Servicing each Grant-Funded Collection Receptacle as often as necessary to avoid reaching capacity.
- Promptly servicing any Grant-Funded Collection Receptacle in the event that it does reach capacity to avoid disruptions to collection operations.
- Maintaining each Grant-Funded Collection Receptacle in good working order.
- Reporting the following information to MED-Project on a quarterly basis, within 30 days after the end of the calendar quarter, in a format specified by MED-Project:
 - Updated list of Collection Sites participating in the local collection network during the quarter.
 - Transporters and disposal facilities used during the quarter under the MED-Project Grant Program.
 - Weight of Covered Drugs collected during the quarter by each Collection Site.

Grant funds will be disbursed on an annual basis within 45 days of the beginning of each calendar year. Payments will be made payable to the responsible coordinating organization.

Collection Sites funded by the MED-Project Grant Program will be included in MED-Project's list of participating Authorized Collectors available via the neutrally-branded Drug Take-Back Program website.

The Grant Program will provide the option for LEAs who receive a Funding Grant to submit a request to replace, subject to availability, a non-functioning Grant-Funded Collection Receptacle or a collection receptacle at their site that does not meet all regulatory requirements.

When a written expression of interest is received from a Potential Authorized Collector with an existing collection receptacle that is not eligible for the Grant Program, MED-Project will offer to transition the Potential Authorized Collector's collection receptacle to the Program if the receptacle can be serviced by MED-Project's Vendor and can meet all of the requirements described in the Plan for a MED-Project Collection Receptacle.

B. Administrative and Operational Costs

410 ILCS 720/25(e) A drug take-back program must pay for all administrative and operational costs of the drug take-back program, as outlined in subsection (a) of Section 55.

MED-Project will pay all costs associated with the administration and operation of the Program. Program funding is discussed in greater detail in Plan Section IX.

C. Collection, Storage, and Service

1. MED-Project Collection Site Hours

410 ILCS 720/25(f) An authorized collector operating a drug take-back program collection site must accept all covered drugs from consumers during the hours that the location used as a collection site is normally open for business to the public.

All MED-Project Collection Sites will accept all Covered Drugs from Consumers during the hours that the Collection Site is normally open for business to the public.

2. Collection, Storage, Transportation, and Disposal

410 ILCS 720/25(g) A drug take-back program collection site must collect covered drugs and store them in compliance with State and federal law, including United States Drug Enforcement Administration regulations. The manufacturer program operator must provide for transportation and disposal of collected covered drugs in a manner that ensures each collection site is serviced as often as necessary to avoid reaching capacity and that collected covered drugs are transported to final disposal in a manner compliant with State and federal law, including a process for additional prompt collection service upon notification from the collection site. Covered drugs shall be disposed of at: (1) a permitted hazardous waste facility that meets the requirements under 40 CFR 264 and 40 CFR 265; (2) a permitted municipal waste incinerator that meets the requirements under 40 CFR 50 and 40 CFR 62; or (3) a permitted hospital, medical, and infectious waste incinerator that meets the requirements under subpart HHH of 40 CFR part 62, an applicable State plan for existing hospital, medical, and infectious waste incinerators, or subpart Ec of 40 CFR part 60 for new hospital, medical, and infectious waste incinerators.

An Authorized Collector must maintain all applicable licenses, registrations, and credentials in good standing, safely and securely collect and store Covered Drugs, and comply with an agreement to participate in the Program and all applicable laws, regulations, and other legal requirements.

Except for those Authorized Collectors participating in the MED-Project Grant Program, Authorized Collectors participating in the Program will either be provided with a new MED-Project Collection Receptacle, or MED-Project will offer to transition to the Program any existing collection receptacle at the Collection Site that can be serviced by MED-Project's Vendor and meet all applicable laws, regulations, and other requirements described in the Plan.

MED-Project Collection Receptacles will use plain language to instruct Consumers on their use, including information about what is and is not accepted in the receptacle. MED-Project Collection Receptacle signage will prominently display the toll-free telephone number for MED-Project's Call Center and Website for the Program so members of the public can report a full or damaged collection receptacle or inquire about the Program. The signage on the MED-Project Collection Receptacle will inform Consumers that when depositing Covered Drugs, they should ensure that all personally

identifiable information on the Drug containers and packaging is completely crossed out, removed, or made unreadable before placing them in the receptacle. Appendix B provides sample mockups of MED-Project Collection Receptacles and signage.

Pre-filled Injector Products cannot be deposited into MED-Project Collection Receptacles and will be collected and disposed of via Injector Mail-Back Packages ordered from the MED-Project Website or Call Center or provided at a Mail-Back Distribution Location.

All collection receptacles in the Program will be securely placed and maintained inside a Collection Site's physical location in accordance with the DEA Rule. Collection receptacles at LEAs will be placed in a secure building interior area that is open to the public and under the observation of a sworn police officer at all times that the collection receptacle is open to the public for drop offs. Non-law enforcement Authorized Collectors will place collection receptacles inside their DEA-registered location, securely fastened to a permanent structure, in an area at which an employee is present (e.g., within view of a pharmacy counter).

For MED-Project Collection Sites that are not receiving a Funding Grant, MED-Project offers two types of collection service methods: Scheduled Collection Service and On-Demand Collection Service. For both methods, MED-Project provides for the collection, transportation, and disposal of Covered Drugs at no cost to the Collection Site.

At a MED-Project Collection Site participating via the On-Demand Collection Service method, the Authorized Collector employees prepare the inner liner for pick up by Carrier. This collection method enables Authorized Collectors to control the timing for servicing the MED-Project Collection Receptacle, allowing Collection Sites to service the receptacle as often as necessary to avoid reaching capacity and disruption to collection operations. At a MED-Project Collection Site participating via the Scheduled Collection Service method, MED-Project will provide for a Service Technician to help prepare MED-Project Collection Receptacle inner liners for pick-up by Carrier and replace the packaged inner liners with replenishment inner liners on a predetermined schedule. For both collection service methods, Carrier will pick up packaged inner liners from MED-Project Collection Sites according to a regular cadence dependent on a Collection Site's business hours and volume collected. To avoid unnecessary disruptions to Collection Sites, MED-Project is requesting that approval of this Plan by the Agency suffice as written approval for an exemption to the 90-day storage requirement for household waste drop-off points under 415 ILCS 5/22.55(c)(6).

When servicing a MED-Project Collection Receptacle, Collection Site employees following instructions provided by Vendor (On-Demand Collection Service method) or Service Technician(s) under the supervision of the Collection Site (Scheduled Collection Service method) will:

- Check the collection receptacle for any damage.
- Remove the inner liner and box from the collection receptacle.

- Seal the inner liner at once following procedures meeting all DEA requirements.
- Replace the inner liner and box with a replenishment inner liner and box provided by Vendor.
- Match the unique identifier of the inner liner to the tracking number on the shipping label.
- Package the inner liner for transport.
- Prepare the packaged inner liner for shipment and perform applicable pre-transportation functions to comply with the DOT Hazardous Materials Regulations and Vendor shipping requirements.
- Schedule a pick-up by Carrier.

Under DEA regulations, Authorized Collector employees will document each phase of the process. Authorized Collector employees will submit any necessary maintenance requests through the Help Desk.

Authorized Collector employees will maintain control of the inner liner at all times. The MED-Project Collection Site will store the inner liner in compliance with all applicable laws, regulations, and other legal requirements until Carrier pick-up.

MED-Project will provide a system to fulfill orders for additional liners and boxes. MED-Project will work with Collection Sites to determine a replenishment schedule, including the number of replenishment inner liners and boxes, to prevent inner liner and box depletion. Requests for additional inner liners and boxes will be received through the MED-Project Website and Help Desk. MED-Project will also provide a system to fulfill a request for an additional service if a Collection Site participating via the Scheduled Collection Service method must lock a MED-Project Collection Receptacle because it is full. MED-Project will work with Collection Sites to determine a service schedule to prevent the MED-Project Collection Receptacle from reaching capacity.

Each inner liner and box provided by the Vendor will be pre-paid and pre-addressed for transport and disposal. Each Mail-Back Package, inner liner, and shipping box provided under the Program will have a unique tracking number enabling tracking to disposal.

Upon Carrier pick-up following MED-Project Collection Receptacle service, packaged inner liners from MED-Project Collection Sites will be tracked by the Carrier and Vendor tracking systems until they are scanned for receipt at a reverse distributor facility. Upon receipt at a reverse distributor facility, inner liners will be recorded for receipt verification, weighed, and stored in accordance with all applicable laws, regulations, and other legal requirements.

Mail-Back Packages returned by Consumers under the MED-Project Program will be transported by the Carrier and handled in compliance with all applicable laws, regulations, and other legal requirements. Upon receipt at a reverse distributor or disposal facility, Standard Mail-Back Packages, Inhaler Mail-Back Packages, and Injector Mail-Back Packages will be recorded for receipt verification, weighed, and destroyed at a permitted disposal facility.

All Covered Drugs collected under the Program will be disposed of in accordance with all applicable laws, regulations, and other legal requirements at a facility meeting the following requirements:

- A permitted hazardous waste facility that meets the requirements under 40 CFR 264 and 40 CFR 265;
- A permitted municipal waste incinerator that meets the requirements under 40 CFR 50 and 40 CFR 62; or
- A permitted hospital, medical, and infectious waste incinerator that meets the requirements under subpart HHH of 40 CFR part 62, an applicable state plan for existing hospital, medical, and infectious waste incinerators, or subpart Ec of 40 CFR part 60 for new hospital, medical, and infectious waste incinerators.

3. Compliance with State and Federal Laws & Regulations

410 ILCS 720/25(h) Authorized collectors must comply with all State and federal laws and regulations governing the collection, storage, and disposal of covered drugs, including United States Drug Enforcement Administration regulations.

MED-Project supports Authorized Collector compliance with state and federal laws and regulations governing the collection, storage, and disposal of Covered Drugs by providing guidance and training materials to MED-Project Collection Sites to regularly self-assess their records and MED-Project Collection Receptacles and by providing ongoing support through the Help Desk. The Help Desk is available through the MED-Project Website at MED-Project.org, 1-833-MED-PROJECT (1-833-633-7765), or illinois@med-project.org to support the following functions and assistance:

- Answer questions and monitor comments from Authorized Collectors, Potential Authorized Collectors, pharmacists and Pharmacies, MED-Project Collection Sites, and/or Mail-Back Distribution Locations.
- Respond to providers, hospitals, Pharmacies, and other entities that wish to distribute Mail-Back Packages and/or promotional materials.
- Direct and respond to requests for service from Authorized Collectors, MED-Project Collection Sites and/or Mail-Back Distribution Locations.

Authorized Collectors, Potential Authorized Collectors, pharmacists and Pharmacies, and/or Mail-Back Distribution Locations will be able to obtain educational and outreach materials, order more Mail-Back Packages in bulk, and communicate with MED-Project about questions, concerns, or report issues through the Help Desk, including on the MED-Project Website. Potential Authorized Collectors, including pharmacists and Pharmacies, may also use the Help Desk to request program information and express interest in participating in the Program.

MED-Project agreements require that MED-Project Collection Sites involved in the collection, storage, and disposal of Covered Drugs act in compliance with all applicable laws, regulations, and other legal requirements.

4. Convenient Access

410 ILCS 720/25(i) A drug take-back program must provide for the collection, transportation, and disposal of covered drugs on an ongoing, year-round basis and must provide access for residents across the State as set forth in subsection (j).

410 ILCS 720/25(j) A drug take-back program shall provide, in every county with a potential authorized collector, one authorized collection site and a minimum of at least one additional collection site for every 50,000 county residents, provided that there are enough potential authorized collectors offering to participate in the drug take-back program.

All potential authorized collection sites that offer to participate in a drug take-back program shall be counted towards meeting the minimum number of authorized collection sites within a drug take-back program. Collection sites funded in part or in whole under a contract between a covered manufacturer and a pharmacy entered into on or before the effective date of this Act shall be counted towards the minimum requirements within this Section for so long as the contract continues.

MED-Project's Program will provide for the collection, transportation, and disposal of Covered Drugs on an ongoing, year-round basis and will provide access for residents across the State as prescribed in 410 ILCS 720/25(j). 410 ILCS 720/25(j) requires that the Program provides, in every county with a Potential Authorized Collector, one authorized Collection Site and a minimum of at least one additional Collection Site for every 50,000 county residents, provided that there are enough Potential Authorized Collectors offering to participate in the Program. As discussed in Section III.A.1, MED-Project will establish a Collection Site network to meet its required proportion of the convenient access goals in 410 ILCS 720/25(j) through existing retail chain Pharmacy relationships, providing a Grant Program for certain eligible existing Collection Sites, and by including other interested and eligible Potential Authorized Collectors as MED-Project Collection Sites. If MED-Project is the only Manufacturer Program Operator approved to operate a Drug Take-Back Program in Illinois, MED-Project will achieve the convenient access goals in 410 ILCS 720/25(j) independently. If multiple Manufacturer Program Operators are approved, MED-Project will establish MED-Project Collection Sites and provide supplemental services (i.e., Mail-Back Distribution Locations or Collection Events) to achieve a fair and equitable portion of the convenient access goals, proportionate to the number of Manufacturer Program Operators approved, as discussed in Section III.A.1. MED-Project will rely on the Agency to coordinate this multiple operator allocation of Collection Sites needed to achieve the convenient access goals while ensuring that there is no imbalance created by the allocation (e.g., rural areas where Collection Sites are harder to place are fairly distributed, Potential Authorized Collectors seeking to participate are referred to the Manufacturer Program Operator with the fewer number of established Collection Sites, etc.).

MED-Project will establish its Collection Site network according to the Post Plan Approval Implementation Timeline in Appendix C.

D. Mail-Back Services and Collection Events

410 ILCS 720/25(k) A drug take-back program may include mail-back distribution locations or periodic collection events for each county in the State. The manufacturer program operator shall consult with each county authority identified in the written notice prior to preparing the program plan to determine the role that mail-back distribution locations or periodic collection events will have in the drug take-back program.

The requirement to hold periodic collection events shall be deemed to be satisfied if a manufacturer program operator makes reasonable efforts to arrange periodic collection events but they cannot be scheduled due to lack of law enforcement availability.

A drug take-back program must permit a consumer who is a homeless, homebound, or disabled individual to request prepaid, preaddressed mailing envelopes. A manufacturer program operator shall accept the request through a website and toll-free telephone number that it must maintain to comply with the requests.

MED-Project's Program will work to establish MED-Project Collection Sites to meet the goals for convenient access. However, in the event that there are not enough Potential Authorized Collectors offering to participate in the Program after the 18-month implementation period, MED-Project may establish Mail-Back Distribution Locations or provide for periodic Collection Events in counties where there are not sufficient Authorized Collectors available to host the required number of collection receptacles. If the Agency approves another Plan that establishes a different standard or timeline for coverage in place of missing Collection Sites, MED-Project may adopt that standard by submitting a written notice to the Agency.

On February 24, 2023, as required by 410 ILCS 720/25(k), MED-Project sent an email to county authorities identified by the Agency in all Illinois counties. The email included a survey requesting each county authority's consultation on potential Mail-Back Distribution Locations and potential LEAs that would be able to staff a Collection Event in their county, if needed to supplement the Collection Site network to meet the convenient access goals. Where a county did not respond to the survey, MED-Project will work to establish Mail-Back Distribution Location(s) in that county, if needed. MED-Project received three survey responses (see responses in Appendix D). Two responses indicated that the county authority could recommend locations to serve as Mail-Back Distribution Locations and could also recommend LEAs that would be able to staff a Collection Event in their county. One response indicated that the county authority could not recommend a potential Mail-Back Distribution Location nor an LEA to staff a Collection Event. Where needed after the 18-month implementation period, MED-Project will proceed with establishing Mail-Back Distribution Locations in those counties where the convenient access goals have not been met, subject to the multiple Manufacturer Program Operator allocation/coordination discussed in Section III.C.4 above. If MED-Project is responsible for achieving the convenient access goal in the county where the county authority could not recommend a potential Mail-Back

Distribution Location, MED-Project will conduct additional follow up with the county authority and with potential Mail-Back Distribution Locations and/or LEAs in that county.

MED-Project will begin establishing Mail-Back Distribution Locations in counties where there are not sufficient Authorized Collectors available on July 1, 2025, and will establish all necessary Mail-Back Distribution Locations by January 1, 2026. If MED-Project is unable to secure a Mail-Back Distribution Location in a particular county during that time period, MED-Project will make reasonable efforts to provide for Collection Events in that county, dependent on LEA availability.

1. Mail-Back Services

Mail-back services will be available to all Illinois residents, including those who are homeless, homebound, or disabled and those who live in rural counties where access to Collection Sites may be limited due to lack of available Authorized Collectors. MED-Project will provide three types of Mail-Back Packages including Standard Mail-Back Packages, Inhaler Mail-Back Packages, and Injector Mail-Back Packages. Requests by residents to receive Mail-Back Packages will be taken through the MED-Project Website and Call Center. All Mail-Back Packages will be prepaid, pre-addressed, provided at no cost to residents upon request, and will include instructions for use. The provision, collection, and disposal of Covered Drugs via Mail-Back Packages will comply with all applicable laws, regulations, and other legal requirements.

Homeless individuals without a permanent address can use any of the services described above throughout the State. When a homeless individual without a permanent address requests a Mail-Back Package through the Call Center or Website, MED-Project's systems will allow the individual to enter an address of a service provider, such as a shelter or church, or to use USPS's General Delivery service to receive the Mail-Back Package, in lieu of a permanent address. The USPS General Delivery service allows individuals without a permanent address to receive mail at a USPS facility.

2. Mail-Back Distribution Locations

MED-Project may establish Mail-Back Distribution Locations to supplement services in any county of the State that does not have sufficient Authorized Collectors to meet the convenient access goals. Mail-Back Distribution Locations will be located in staffed public facilities, such as libraries, town halls, or law enforcement agencies, and will distribute Mail-Back Packages to residents.

Once a facility has executed an agreement to become a Mail-Back Distribution Location, MED-Project will provide three types of Mail-Back Packages:

- Standard Mail-Back Packages, for Covered Drugs that are not Pre-filled Injector Products or inhalers.
- Inhaler Mail-Back Packages.

- Injector Mail-Back Packages.

Mail-Back Distribution Locations may request Mail-Back Packages through the MED-Project Website or Help Desk. Requests will be promptly fulfilled.

3. Collection Events

MED-Project may provide for periodic Collection Events to supplement services in counties of the State that do not have sufficient Authorized Collectors to meet the convenient access goals, where there is LEA availability. MED-Project will contract with LEAs to oversee Collection Events.

IV. Manufacturer Program Operator Requirements

410 ILCS 720/30. A Manufacturer program operator shall:

A. Policies and Procedures

410 ILCS 720/30(1) Adopt policies and procedures to be followed by persons handling covered drugs collected under the program to ensure compliance with State and federal laws, rules, and regulations, including regulations adopted by the United States Drug Enforcement Administration.

MED-Project has policies and procedures in place to ensure that MED-Project Collection Sites and service providers will manage collected Covered Drugs in compliance with all state and federal laws, rules, and regulations, including regulations adopted by the DEA. The relevant policies and procedures are codified in or required under MED-Project's agreements with its Vendors involved in the collection and disposal of Covered Drugs under the Program, Authorized Collectors, Mail-Back Distribution Locations, and LEAs supporting Collection Events.

B. Security of Patient Information

410 ILCS 720/30(2) Ensure the security of patient information on drug packaging during collection, transportation, recycling, and disposal.

Instructions at MED-Project Collection Receptacles will inform Consumers that they should completely cross out, remove, or otherwise make unreadable all personally identifiable information on Drug containers and packaging before depositing them in the Collection Receptacle. In cases where people follow the instructions, there will be no personally identifiable information.

In addition to MED-Project Collection Receptacle signage, Program promotional materials will encourage Consumers to protect their information by ensuring that identifiable information is not present before depositing Covered Drug containers and packaging into MED-Project Collection Receptacles.

As added protection, the inner liners for the MED-Project Collection Receptacles and those used at Collection Events will be opaque, in compliance with the DEA requirements. Mail-Back Packages provided under the Program are also opaque. This will prevent anyone from seeing any information on the Covered Drug containers and packaging collected at MED-Project Collection Sites or placed in Mail-Back Packages.

MED-Project Collection Receptacle inner liners and Standard Mail-Back Packages cannot be x-rayed, analyzed, or otherwise penetrated under the DEA Rule. MED-Project Collection Sites and Vendors involved in the collection and disposal of Covered Drugs must comply with those requirements under their agreements with MED-Project.

C. Promotion of Program

410 ILCS 720/30(3) Promote the program by providing consumers, pharmacies, and other entities with educational and informational materials as required under Section 45.

The MED-Project Program will be promoted by providing Consumers, Pharmacies, and other entities with educational and informational materials as described in Section VII of this Plan.

D. Program Considerations

410 ILCS 720/30(4) Consider: (A) the use of existing providers of pharmaceutical waste transportation and disposal services; (B) separation of covered drugs from packaging to reduce transportation and disposal costs; and (C) recycling of drug packaging.

MED-Project has agreements with several existing providers of pharmaceutical waste transportation and disposal services including established registered reverse distributors and will use those providers in carrying out its Program. Transportation and disposal are discussed in more detail in Sections III.C.2 and V.C of this Plan.

MED-Project has considered and evaluated options for the separation and recycling of Covered Drug packaging. Separating and recycling Covered Drug packaging collected under the Plan would require the management of separate waste streams at Collection Sites: a waste stream for Covered Drug packaging and a waste stream for the Covered Drugs themselves. While Covered Drug packaging is expected to constitute a significant amount of the waste incinerated under the Plan, MED-Project has concluded that separation of inner and/or outer packaging from Covered Drugs or recycling packaging would raise three significant concerns:

- Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging.
- Separating and recycling drug packaging could increase the potential of releases and leakage of Covered Drugs.
- Separating and recycling drug packaging could increase diversion risks by adding additional steps to the collection process and, because drug packaging is used in drug counterfeiting, could be a diversion target itself.

For these reasons, the Plan does not provide for the separation and recycling of packaging from Covered Drugs.

V. Program Information

410 ILCS 720/35(b) The Agency shall approve a proposed program if each covered manufacturer and manufacturer program operator participating in the program has registered and paid the fee under Section 60, the program proposal demonstrates the program fulfills the requirements under Section 25, and the proposal includes the following information on forms prescribed by the Agency:

A. Manufacturer Program Operator and Participating Covered Manufacturers

410 ILCS 720/35(b)(1) The identity and contact information for the manufacturer program operator and each participating covered manufacturer.

The contact person for MED-Project IL, LLC (“MED-Project”), which is the Manufacturer Program Operator who is submitting this Plan and to whom the Agency shall direct all related inquiries, is:

Jim Wilson
Lead Director, Legal and Compliance
MED-Project IL, LLC
47 W Polk St.
Suite 100-618
Chicago, IL 60605
Phone: 1 (833) 633-7765
illinois@med-project.org

Appendix E contains the identity and contact information for all Covered Manufacturers participating in the MED-Project Program.

B. Participating Authorized Collectors

410 ILCS 720/35(b)(2) The identity and contact information for the authorized collectors participating in the drug take-back program.

Appendix F contains the identity and contact information for all Authorized Collectors who have signed agreements to participate in the MED-Project Program as of Plan submission.

C. Transporters and Waste Disposal Facilities

410 ILCS 720/35(b)(3) The identity of transporters and waste disposal facilities that the program will use to transport and dispose of collected covered drugs.

Appendix G contains the identity of all transporters and waste disposal facilities that will be used to transport and dispose of collected Covered Drugs under the MED-Project Program.

D. Potential Authorized Collectors Notified of Opportunity to Participate

410 ILCS 720/35(b)(4) The identity of all potential authorized collectors that were notified of the opportunity to serve as an authorized collector, including how they were notified.

As required by 410 ILCS 720/25(a), on February 24, 2023, MED-Project notified over 2,700 DEA-registered pharmacies in Illinois of the opportunity to serve as an Authorized Collector for the proposed MED-Project Program. The list of DEA-registered pharmacies that were sent the opportunity to participate email was provided as a separate attachment with the Plan.

Additionally, MED-Project notified ten umbrella organizations, as provided in consultation with the Agency, and requested that they share the opportunity to participate information with their member organizations. The organizations which were sent the opportunity to participate email include:

- Illinois Police Association, Inc.
- Illinois Association of Chiefs of Police
- Illinois Fraternal Order of Police
- Illinois Sheriffs' Association
- Cook County Sheriffs' Office
- Illinois Retail Merchants Association
- Solid Waste Agency of Lake County, IL
- Jackson County Health Department
- Chicago Metropolitan Water Reclamation District
- North Cook County Solid Waste Agency

VI. Recordkeeping

410 ILCS 720/40 A manufacturer program operator shall maintain records for 5 years of any changes to an approved drug take-back program. These include, but are not limited to, changes in: (1) participating covered manufacturers; (2) collection methods; (3) collection site locations; or (4) contact information for the program operator or authorized collectors.

MED-Project will maintain records of any changes to the approved MED-Project Program for five years. These changes include, but are not limited to:

- Changes in participating Covered Manufacturers.
- Changes in collection methods.
- Changes in MED-Project Collection Site locations.
- Changes in contact information for MED-Project or Authorized Collectors.

MED-Project will notify the Agency of any major Program changes that substantially alter Program scope or operation, including changes to collection methods or contact information for MED-Project.

VII. Program Promotion

410 ILCS 720/45 Each drug take-back program must include a system of promotion, education, and public outreach about the proper collection and management of covered drugs. If there is more than one drug take-back program operated by more than one manufacturer program operator, the requirements of this Section shall be implemented by all drug take-back programs collectively using a single toll-free number and website and similar education, outreach, and promotional materials. This may include, but is not limited to, signage, written materials to be provided at the time of purchase or delivery of covered drugs, and advertising or other promotional materials. At a minimum, promotion, education, and public outreach must include the following:

- (1) Promoting the proper management of drugs by residents and the collection of covered drugs through a drug take-back program.*
- (2) Discouraging residents from disposing of drugs in household waste, sewers, or septic systems.*
- (3) Promoting the use of the drug take-back program so that where and how to return covered drugs is readily understandable to residents.*
- (4) Maintaining a toll-free telephone number and website publicizing collection options and collection sites, and discouraging improper disposal practices for covered drugs, such as disposal in household waste, sewers, or septic systems.*
- (5) Preparing and distributing to program collection sites, for dissemination to consumers, the educational and outreach materials. The materials must use plain language and explanatory images to make collection services and discouraged disposal practices readily understandable by residents, including residents with limited English proficiency.*
- (6) Promotional materials prepared and distributed in conjunction with an approved drug take-back program under this Section may not be used to promote in-home disposal products of any kind, including, but not limited to, in-home disposal products of authorized collectors participating in a drug take-back program.*

The program promotion requirements under this Section do not apply to any drug take-back program established prior to the effective date of this Act that provides promotional or educational materials to the public about the proper collection and management of covered drugs.

MED-Project will implement an education and outreach program to raise awareness and educate the public about the proper collection and management of Covered Drugs. This program will include the distribution of signage, educational materials, and other resources to Collection Sites that are part of the MED-Project Program. Additionally, MED-Project will make information available about the Program, including collection and disposal options.

A. Collective Implementation by Multiple Manufacturer Program Operators

If more than one Drug Take-Back Program is approved, MED-Project will coordinate with other approved Manufacturer Program Operators to collectively implement the Drug Take-Back Program promotion requirements in 410 ILCS 720/45 by using a single toll-free number, a single website, and similar education, outreach, and promotional materials. Upon approval of multiple Drug Take-Back Programs, MED-Project will agree on the terms of coordination with the other Manufacturer Program Operator(s) to provide a single toll-free telephone number and a single website for residents to use to contact Manufacturer Program Operators about the Drug Take-Back Programs, acquire information about the location of the Collection Sites, and access Mail-Back Services.

The following outlines the basic elements of coordination that MED-Project anticipates:

- Website: MED-Project proposes for residents to access a single website for all approved Drug Take-Back Programs. This neutrally-branded landing page may be hosted by the Agency. If the Agency is not able to host the landing page, MED-Project proposes that all Manufacturer Program Operators coordinate to establish the landing page. From this landing page, Illinois residents will then navigate to separate websites hosted by each approved Manufacturer Program Operator.
- Call Center: MED-Project proposes that all Manufacturer Program Operators use a neutrally-branded, toll-free telephone number to serve as a combined call center directory in order to distribute calls from residents to all approved Drug Take-Back Programs. Calls from residents would then be routed to an approved Manufacturer Program Operator's toll-free telephone number.
- Education, Outreach, and Promotional Materials: MED-Project proposes that each Manufacturer Program Operator independently create and distribute education, outreach, and promotional materials that meet the same requirements in 410 ILCS 720/45 such that all Manufacturer Program Operators are using similar materials.

Residents who initially contact MED-Project's branded Website or Call Center will be redirected to the neutrally-branded website and toll-free number.

B. Objectives

The MED-Project education and outreach program will be designed to reach residents through a variety of media channels that will:

- Promote the proper management of drugs by residents and the collection of Covered Drugs through a Drug Take-Back Program.
- Discourage residents from disposing of drugs in household waste, sewers, or septic systems.

- Promote the use of the Drug Take-Back Program so that residents understand where and how to return Covered Drugs.

MED-Project’s education and outreach program will include multiple and varied elements designed to promote the program and educate residents. MED-Project has access to local and national media planning expertise and industry tools.

MED-Project will promote the Drug Take-Back Program to the following target audiences:

- Residents who are age 18 and over
- MED-Project Program Collection Sites

The MED-Project education and outreach program will track performance metrics for various elements and report on these in the Annual Program Report described in Section VIII.

C. Toll-Free Call Center and Website

1. Call Center

MED-Project will establish a Call Center for residents to publicize collection options and locations. Upon calling the toll-free number, residents will be able to order Mail-Back Packages, obtain information about disposal options and Collection Site locations, and request educational materials about the Program.

2. Website

MED-Project will design a Website that provides educational information about the Program and allows residents to order Mail-Back Packages.

See Appendix H for sample Website graphics.

D. Educational and Outreach Materials

1. Written Materials and In-Store Signage

Upon site activation or request, MED-Project will provide written materials and in-store signage for all MED-Project Collection Sites, including Mail-Back Distribution Locations. The written materials and in-store signage will:

- Provide information regarding the Program and the opportunities for safe disposal of Covered Drugs available to residents in the Program.
- Make collection services and discouraged disposal practices easily understandable by residents, including those with limited English proficiency, by using plain language and explanatory images.
- Direct residents to the Website for more information about the Program.

Written materials and in-store signage will be made available upon request to sites receiving Funding Grants under MED-Project's Grant Program.

See Appendix I for sample written materials and Appendix J for sample in-store signage.

2. Public Service Announcements

The public service announcements (PSA) may include video, audio, and static media variants highlighting different disposal options. Messaging will target residents who are age 18 and over and include information about the proper and safe disposal of Covered Drugs.

E. Media Strategy, Tactics, and Channels

MED-Project will employ best practices to create successful paid media activities that effectively promote the Drug Take-Back Program and educate the public:

- Achieve reach among the target audience (residents age 18 and over)
- Utilize effective tactics to execute media plans
- Implement various marketing channels
- Deliver consistent messaging
- Test and optimize performance for digital media

To complement the Call Center, Website, written materials, and in-store signage, MED-Project will leverage efficient and wide-reaching digital tactics to ensure consistent messaging throughout each reporting year.

Offline channels may also be incorporated, as necessary, to further enhance resident awareness. The ultimate media mix and channel distribution will be determined through a thorough media planning process and may be subject to change or optimization during or between campaigns.

1. Digital and Native Display

By utilizing digital display technology, MED-Project can effectively target and reach a wider audience across various devices, including desktop, mobile web, in-app, and tablets. This enables targeted banners to appear on websites that residents frequently visit.

Furthermore, native display advertising consistently performs well to drive engagement and increase clicks, making it an effective tool to drive users to MED-Project landing pages.

By leveraging both digital and native display advertising, MED-Project can significantly increase reach and engagement among the intended audience.

2. Social Media

MED-Project may utilize social media to effectively reach residents and to help raise awareness of the Drug Take-Back Program. Posting on a variety of social media channels, MED-Project will use relevant and informative content that aligns with messaging on the other media channels.

Paid social media activity can significantly increase access to more residents, allowing MED-Project to target a larger audience than with organic social media content. Examples of paid social media include boosting stories, posts, reels, or other effective social content.

3. Community-based organizations, healthcare providers, and other interested parties

Community-based organizations, healthcare providers, and other interested parties may be engaged to enhance MED-Project's outreach to specific, hard-to-reach segments of the population and help spread awareness. The use of this tactic will be evaluated on a case-by-case basis and deployed in situations where conventional media tactics may not be as effective.

VIII. Annual Program Report

410 ILCS 720/50(a) By April 1, 2025, and each April 1 thereafter, a manufacturer program operator must submit to the Agency a report describing implementation of the drug take-back program during the previous calendar year. The report must include:

- (1) a list of the covered manufacturers participating in the drug take-back program during the program year;*
- (2) the total amount, by weight, of covered drugs collected and the amount, by weight, from each collection method used during the program year, reported by county;*
- (3) the total amount, by weight, of covered drugs collected from each collection site during the prior year;*
- (4) the following details regarding the program's collection system:*
 - (A) a list of collection sites, with addresses;*
 - (B) collection sites where mailers to program collection sites, for dissemination to consumers, and education and outreach materials were made available to the public;*
 - (C) dates and locations of collection events held; and*
 - (D) the transporters and disposal facility or facilities used to dispose of the covered drugs collected;*
- (5) a description of the promotion, education, and public outreach activities implemented;*
- (6) a description of how collected packaging was recycled to the extent feasible; and*
- (7) an evaluation of the program's effectiveness in collecting covered drugs during the program year and of any program changes that have been implemented.*

On or before April 1, 2025, and on or before each April 1st thereafter, MED-Project will submit a report to the Agency describing implementation of the Program during the previous calendar year, including:

- A list of the Covered Manufacturers participating in the Program during the program year.
- All available weight data confirmed by April 1 for the reporting period showing the total amount, by weight, of Unwanted Medicine collected and the amount, by weight, from each collection method used during the calendar year, reported by county.
- All available weight data confirmed by April 1 for the reporting period showing the total amount, by weight, of Unwanted Medicine collected from each MED-Project Collection Site during the prior calendar year.
- The following details regarding the Program's collection system:
 - A list of MED-Project Collection Sites, with addresses.

- A list of MED-Project Mail-Back Distribution Locations where Mail-Back Packages, for dissemination to Consumers, and education and outreach materials were made available to the public.
- Dates and locations of Collection Events held.
- All available disposal data confirmed by April 1 for the reporting period showing the transporters and disposal facility or facilities used to dispose of the Covered Drugs collected.
- A description of the promotion, education, and public outreach activities implemented, including:
 - Program Participation:
 - Number of Website visits
 - Number of calls to the Call Center
 - Paid Media:
 - Description of channels and tactics utilized during the reporting period
 - Per-campaign impressions
 - Written materials and in-store signage:
 - List of sites that received written materials and signage.
- A description of how collected packaging was recycled to the extent feasible.
- An evaluation of the Program's effectiveness in collecting Covered Drugs during the reporting period and of any Program changes that have been implemented.

Because of diversion concerns associated with identifying amounts of Covered Drugs collected in collection receptacles at individual Collection Sites, MED-Project will provide to the Agency in the annual report the total amount of drugs collected at each MED-Project Collection Site on a list that uses a unique site ID for each Collection Site. MED-Project will provide the Agency with a confidential site identification list that can be used to match each unique site ID to a Collection Site participating in the Program.

IX. Program Funding

410 ILCS 720/55(a) A covered manufacturer or group of covered manufacturers must pay all administrative and operational costs associated with establishing and implementing the drug take-back program in which it participates. Such administrative and operational costs include, but are not limited to: (1) collection and transportation supplies for each collection site; (2) purchase of collection receptacles for each collection site; (3) ongoing maintenance or replacement of collection receptacles when requested by authorized collectors; (4) costs related to prepaid, preaddressed mail; (5) compensation of authorized collectors, if applicable; (6) operation of periodic collection events, including, but not limited to, the cost of law enforcement staff time; (7) transportation of all collected covered drugs to final disposal; (8) proper disposal of all collected covered drugs in compliance with State and federal laws, rules, and regulations; and (9) program promotion and outreach.

(b) A manufacturer program operator shall allocate to covered manufacturers participating in the drug take-back program the administration and operational costs of the programs. The method of cost allocation shall be included in the drug take-back program proposal required under Section 35.

(c) A manufacturer program operator, covered manufacturer, authorized collector, or other person may not charge: (1) a specific point-of-sale fee to consumers to recoup the costs of a drug take-back program; (2) a specific point-of-collection fee at the time covered drugs are collected from a person; or (3) an increase in the cost of covered drugs to recoup the costs of a drug take-back program.

(d) A manufacturer program operator or covered manufacturer shall not charge any fee to an authorized collector or authorized collection site.

(e) The funding requirements in this Section shall not apply to a pharmacy location that is part of an existing contractual agreement entered into prior to the effective date of this Act between a pharmacy and a covered manufacturer to fund in part or whole the collection, transportation, or disposal of a covered drug so long as that contractual arrangement continues.

Through agreements with Authorized Collectors and Vendor, MED-Project will pay all administrative and operational costs associated with establishing and implementing the Program, including, but not limited to, the costs outlined in 410 ILCS 720/55(a). The participating Covered Manufacturers in the Program will fairly and reasonably allocate among one another the costs of implementing, administering, and operating the Program so that the share of the costs that is allocated to each participating Covered Manufacturer in the Program is reasonably related to the revenue-based market share of Covered Drugs that the participating Covered Manufacturer sells in the State. Costs of the Program are apportioned only among the Covered Manufacturers participating in the Program and not the full list of Covered Manufacturers subject to the Law.

MED-Project will not charge any point-of-sale or point-of-collection fees to Consumers or charge any fee to an Authorized Collector or authorized Collection Site to recoup the costs of its Program.

Appendix A

MED-Project Retail Chain Partners

MED-Project has pre-existing relationships with the following retail chain Pharmacies:

- Costco
- CVS
- Genoa
- Kaiser
- Kinney Drugs
- Kroger
- Rite Aid
- Wegmans
- Walgreens

Appendix B

Sample MED-Project Collection Receptacle and Signage Mockup

Sample MED-Project Collection Receptacle mockup.

Drop-slot Signage:

ACCEPTED: Medication in any dosage form, except for those identified as Not Accepted below, in their original container or sealed bag.

NOT ACCEPTED: Herbal remedies, vitamins, cosmetics, batteries, mercury-containing thermometers, sharps, and illicit drugs.

Please separate and remove any medication listed as not accepted before disposing.

USA.KD.01.000200.ALL.01.04.43.01.00

Front Door Panel Signage:

SAFELY DISPOSE OF EXPIRED OR UNWANTED MEDICINE

1 Cross out or remove personal identifying information from the medicine packaging.

2 Leave the product in its original container or place solid medicine in a sealed plastic bag.
If transferring medication to a sealed bag, please be sure to recycle remaining packaging.

3 Put medicine in the kiosk.

Only schedule II-V controlled and non-controlled substances that are lawfully possessed by the ultimate user are acceptable to be placed in the kiosk. Schedule I controlled substances, illicit or dangerous substances, and any controlled substances not lawfully possessed by the ultimate user may not be placed in the kiosk.

For more information about the MED-Project program, please go to www.med-project.org or call 1-844-MED-PROJECT / 1 (844) 633-7765 (TTY: 711)

Illinois – Medicine Disposal Program

Get Started

What should you do with your expired or unwanted household medication?

Medicine helps treat disease, manage chronic conditions, and improve health and well-being for millions of Americans.

Take medication as directed by your health care provider and as indicated on the label or packaging, then store it securely, and dispose of it safely, to prevent accidental ingestion or misuse by others, including children and pets.

MED-Project's disposal services for your unwanted household medication are safe, convenient and free.

Medicine Usage

Safe Storage Information

Mail-Back Services

This material has been provided for the purpose of compliance with legislation and does not necessarily reflect the views of MED-Project or the companies participating in the MED-Project Product Stewardship Program.

[Privacy Policy](#) | [Accessibility Statement](#)

Medicine Usage

Follow safe disposal instructions if found on label, package, or package insert.

Adhering to your medication routine means taking your medicine as directed or as prescribed – the right dose, at the right time, in the right way.

Never dispose of medication down the sink or toilet unless directed.

If you have questions about any medication or your health, please contact your healthcare provider.

Safe Storage Information

It is important to take medication as prescribed by your health care provider and as indicated on the label or packaging.

Always be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children. If you have expired or unwanted household medication, proper storage and disposal are easy.

To protect your family, pets, and community, follow these instructions for secure storage and safe disposal:

Use as Directed

Use medication as directed. If there are any specific instructions on the label, package, or package insert, please follow those. If you have any questions, ask your healthcare providers.

Store Securely

Follow storage instructions as provided on medicine labels and on the information accompanying medicine. Keep medication in a secure location safely away from people or pets that might come in contact with them.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Please separate and remove any items and medication that are not accepted before disposing.

Do not place medicine in the trash or recycling and never flush them down the sink or toilet.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Mail-Back Services

MED-Project provides the following different types of Mail-Back Packages at no charge to residents.

Please complete the below form to request a pre-paid, pre-addressed mail-back package. Instructions for disposal will be provided with all mail-back services. Please submit separate forms for each type of mail-back package.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicine.

Home healthcare professionals providing services to residents may also request a Mail-Back Package on their behalf.

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about the proper disposal of unwanted household medication.

Are You Done With Those?

Safe and Free Medication Disposal. We Make it Easy for You!

What should you do with your expired or unwanted medication?

Medicine helps treat disease, manage chronic conditions, and improve health and well-being for millions of Americans. Adhering to your medication routine means taking your medicine as directed by your healthcare provider or as indicated on the label or packaging—the right dose, at the right time, in the right way. Then, store it securely, and dispose of it safely, to prevent accidental ingestion or misuse by others, including children and pets.

MED-Project programs and services make it safe, free, and convenient for you to dispose of medication.

Use as Directed

Use medication as directed. If there are specific instructions on the label, package, or package insert, please follow those instructions. If you have any questions, ask your health care providers.

Store Securely

Follow storage instructions as provided on medicine labels and the information accompanying the medicine. Keep medications in a secure location, safely away from people or pets.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Disposal of Household Medication

MED-Project provides safe, free, and convenient disposal options for household medications in your community.

Drop Box

Conveniently located drop boxes are available in your area. To find a drop box near you, visit the Find a Location section of med-project.org.

Mail-Back

Mail-back packages are available in your area. All mail-back packages are pre-addressed with postage pre-paid. To order a Mail-back package, visit the Mail-Back section of med-project.org.

MED-Project may have mail-back package distribution or informational sites in your area.

To find out more about the disposal options in your area, visit med-project.org.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medication.

What items can I dispose of in a drop box?

Please separate and remove any items and medication that are not accepted before disposing.

Accepted: Medications in any dosage form, except for those identified as Not Accepted below, in their original container or sealed bag.

If transferring medications to a sealed bag, please be sure to recycle remaining packaging.

NOT Accepted: Herbal remedies, vitamins, cosmetics, batteries, mercury-containing thermometers, sharps, and illicit drugs.

To learn more about items that are not accepted in your area, visit med-project.org.

For more information about the MED-Project Program, visit www.med-project.org or call 1 (844) MED-PROJECT or 1 (844) 633-7765 (TTY: 711).
